

W

THE WESTIN STORY

The first ever Westin lure was created by the late Ingvar Westin, a skilled toolmaker who wanted to make a toy for his children. He carved a fish which wriggled and rolled like a real fish as they dragged it through the water. And since it looked like an oversized pike lure, he christened it "Jätte" – The Swedish word for "giant". The Westin Jätte was born, and so was an entire new fishing movement – the Westin roll.

Even though he was creating a toy, Ingvar Westin was driven by passion and perfection. So it wasn't long before others noticed the characteristic looks and movement of the Jätte. Local pike fishing experts compared its perfect balance and side-to-side swimming action with the pike lures of the time. They found that due to Jätte's size and unique action the biggest pike were irresistibly attracted to it. The childrens' 'toy' had found a serious purpose among the grown-ups!

Before long, pike fishermen near his home in Skutskär near Gävle were demanding Ingvar make more and more of these amazing lures for them in a choice of colours.

They used them in the local lakes, rivers and the brackish water of the Baltic Sea nearby – excellent pike fishing waters that offered up loads of great specimens to the new lure. Ingvar soon had a busy production line running.

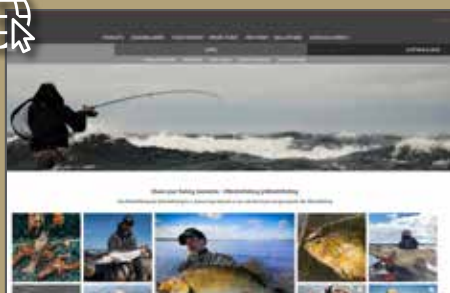

By the time it allegedly trapped a giant pike in excess of 20Kg in the Archipelago of Norrtälje in 1977, Jätte was famous far and wide as the go-to big predator lure.

Since then, the Westin Jätte has deceived some of the biggest, wildest old pike in Sweden. What started out as a child's plaything in 1952 has now become a well-established and trusted brand in the fishing tackle industry.

Today Westin offers a wide range of trusted lures, rods and other fishing equipment – all produced with the same passion for perfection as Ingvar Westin's original lure, and created to satisfy those looking for the best tools to pursue monster fish.

W|10 POWERTEEZ

Code	Model	Length	Class	Cw	Sections	Cover	Transport L.	Weight	Ct
W1005-0872-MH	W10 Powerteez	8'7"/258 cm	MH	20-60 g	2 sec	W10 Octagon Tube	135 cm	173 g	1

Extra-fast action, well balanced, extremely powerful, sensitive and a minimal weight. We could keep bragging about this rod for hours, but all we urge you to do is to pick one up. The W10 PowerTeez rod is made specifically for fishing with soft & hard lures after big chunky pike and zander from shore or boat. The W10 PowerTeez is made with the best materials available - Torayca® "Nanoalloy® 55TON" carbon and X5 carbon layer technology mounted with premium fittings, resulting in a sensitive rod with excellent strike-power that still brings immense satisfaction when fighting fish.

Westin W10 rods leverage the absolute latest design and technological advancements to provide cutting-edge performance that cannot be found anywhere else. All rods are manufactured according to the highest level of quality control, and each blank is individually strength tested before release.

- Handle: Custom designed G-Hyper carbon handle
- Reel seat: Fuji® VSS, rubber coated
- Hood: 360° custom designed screw-down with 1k woven carbon reinforcement
- Guides: Tangle free Fuji® Titanium Torzite® K guides
- Blank: Toray® Torayca® "Nanoalloy® 55TON" and X5 carbon layer technology
- Blank color: Matt black with 4-axial carbon reinforcement
- Joint: 4-axial and 1K carbon reinforced spigot joint
- Hook-keeper: Seaguide® Stainless D-Hook
- Custom made rubber non-slip end-cap
- Low-profile guide wrappings
- Delivered in Octagon Cordura tube and velvet rod bag
- Unique serial number on each rod

W|10 MONSTERSTICK-T

Code	Model	Length	Class	Cw	Sections	Cover	Transport L.	Weight	Ct
W1006-0792-5XH	W10 Monsterstick-T	7'9"/233 cm	5XH	120-260 g	1+1 sec	W10 Octagon Tube	175 cm	214 g	1

The W10 Monsterstick-T combines the opposing forces of extreme power and light weight in the rod of your dreams. This is possible thanks to the Torayca® Nanoalloy® 55TON and X5 carbon layer technology which is the very backbone of this beast of a rod.

The medium-fast action delivers a premium feel and sensitivity with unparalleled strength. The power in these rods gives you hook setting capabilities unlike any other rod, which makes it perfect for catching the meanest pike and musky that roam your water. Use it with the heaviest lures you can find in your tackle box, and still be able to fish with it for a full day.

Westin W10 rods leverage the absolute latest design and technological advancements to provide cutting-edge performance that cannot be found anywhere else. All rods are manufactured according to the highest level of quality control, and each blank is individually strength tested before release.

TORAYCA

SiC GUIDE
DYNAMIC & SENSITIVE - BEST PROTECTION FOR ALL FISHING LINE

Raw strength, light weight, and extreme sensitivity packed in a fast blank are key ingredients when targeting species like zander and pike vertically. These are the exact ingredients of the W6 Vertical Jigging. The reason behind this is simple – the best available Torayca® high performance carbon you can find, combined with premium fittings.

The sensitivity in this rod makes you almost feel the fish before it strikes, while the fast blank ensures the perfect hook-set. The custom designed ergonomic rear handle supports the forearm perfectly when jigging and fighting fish all day long. Made with a detachable handle, for easy transportation, without compromising on that 'one-piece style' action.

- Split-handle with super grade EVA – compact and non-slippery
- Reel Seat: Fuji® SKSS – rubber coated
- Guides: Fuji® SiC
- Blank: Torayca® High Performance Carbon Fibers for superior action and casting
- Flat ergonomic rear handle for extra support
- Low-profile guide wrappings
- PacBay® hook keeper

TORAYCA

SiC GUIDE
DYNAMIC & SENSITIVE. BEST PROTECTION FOR ALL FISHING LINE.

Combining street smarts design with great fishing technology, the W6 StreetStick is perfect for fishing in urban environments, small lakes and rivers, harbours and rock fishing. This rod has just as much technical performance as it does attitude – with a medium/fast action it can handle light softlures and small hardlures for targeting perch, trout and other smaller critters. We guarantee that you won't be able to catch something on this rod without a huge smile on your face.

- Split-handle with super grade EVA - compact and non-slip
- Reel Seat: Fuji® SKSS, rubber coated
- Guides: Fuji® SiC
- Blank: Torayca® High Performance Carbon for superior action, casting and strength
- Custom made rubber gimbal, non-slip
- Low-profile guide wrappings
- PacBay® hook keeper

TORAYCA

The W6 Powerstick is a lightweight and versatile powerhouse that fits the demand of the modern angler. These rods are packed with power, and due to premium Torayca® carbon fibers, you still get a true lightweight feel when fishing, fighting fish, and detecting even the most cautious bites.

Use it in cold or tropical water, vertical or casting, from boat or shore – the W6 Powerstick will get the job done no matter where in the world you put them to use. These rods are excellent for seabass, jacks, small sized tuna, cod and saithe, but the versatile action of the W6 Powerstick also make them great for freshwater species like pike and zander.

- Reel seat: Fuji® VSS
- Guides: Fuji® SIC K-guides
- Blank: Torayca® High performance Carbon blank
- Handle: Premium grade EVA handle

TORAYCA

This speed jigging rod puts an end to the airport check in counter quarrels and the struggles of a lost rod barrel once you reach your dream destination. A two-section rod design makes it easier than ever to fit you rods in a suitcase, backpack or duffel bag to conquer the growing jungle of airport restrictions. On a rod made to wrestle some of the biggest and strongest fish designing a joint takes special attention. The mission of our rod designers was to make sure even the best reels broke before the rod. They succeeded and created the ultimate strength travel rod for speed jigging with large fixed spool reels.

- Saltwater super grade EVA handle
- Reel Seat: Fuji® DPS with unique rubber coating
- Guides: Fuji® SIC MN
- Blank: Torayca® High Performance Carbon for superior action and casting
- Reinforced with 90° Carbon
- Aluminum Cross Gimbal
- Pac Bay Rubber Gimbal Cover
- Delivered in padded cloth bag
- Unique serial number on all rods
- PE4- 8 Max Power 33 kg

FUJI **SiC GUIDE** Q

FUJI

When fishing at a remote tropical destination no failures are allowed. Our rod designers knew this, when we asked them to make a range of rods that will make even the best reels break, if the rods are pushed to the max! Westin W6 Popping are designed for casting poppers and wrestling with rooster fish, GT's, cubera snappers and all other tough, tropical species. The rods feature saltwater super grade EVA handles, Fuji® DPS reel seat and Fuji® SiC guides. These rods will wrestle any monster fish and since they fit into your luggage, you will avoid airline restrictions and all the 'following-the-rules-monsters' waiting at the check in counter.

- Saltwater super grade EVA handle
- Reel Seat: Fuji® DPS with unique rubber coating
- Guides: Fuji® SiC MN / Fuji® K-series SiC guides
- Blank: Torayca® High Performance Carbon for superior action and casting
- Reinforced with 90° Carbon
- Maximum strength joints
- Delivered in padded cloth bag
- Unique serial number on all rods
- PE6- 10 Max Power 12 kg / 22 kg

TORAYCA

FUJI **SiC GUIDE** Q

FUJI

Enough messing around, sometimes fishing is serious, and the W6 Boat is for those occasions. Designed following a long testing process it is perfect for hardcore guides or sea anglers. When chasing monster predators, like cod and halibut, you need three things: sensitivity, lightness and raw strength – and this rod has the top card in all three. Torayca® High performance carbon gives you a light and sensitive rod that could also pull any monster from the depths. If this rod was a human it would make Arnold Schwarzenegger look like a wimpy kid.

- Saltwater super grade EVA handle
- Reel Seat: Fuji® DPS-H, rubber coated
- Guides: Fuji® SiC
- Blank: Torayca® High Performance Carbon for superior action, casting and strength
- Custom design Comfort Cross Gimbal (CCG)
- Low-profile guide wrappings

W|6 SPIN

Code	Model	Length	Class	Cw	Sections	Cover	Transport L.	Weight	Ct
W610-0902-M	W6 Spin	9'270 cm	M	7-30 g	2 sec	Velvet bag	141 cm	174 g	1
W610-1002-M	W6 Spin	10'300 cm	M	7-30 g	2 sec	Velvet bag	155 cm	205 g	1
W610-1002-MH	W6 Spin	10'300 cm	MH	10-40 g	2 sec	Velvet bag	155 cm	225 g	1

We know that medium/fast blanks have become a classic for many Scandinavian seatrout anglers, so instead of creating something new, we decided to try and perfect that. The W6 Spin is a casting cannon with a super sensitive feel that means you can still tell exactly what is going on even when fishing far out, and the power of its blank means you can tame hard-fighting fish with ease. This rod is especially designed for seatrout fishing on the coast – you can throw your lures in the harshest wind and rain, this baby can handle it – can you?

- Handle: Super grade cork handle
- Reel Seat: Fuji® TVS, rubber coated
- Guides: Fuji® SiC
- Blank: Torayca® High Performance Carbon for superior action, casting and strength
- Unique Axe/Samurai sword shape on rear handle
- Low-profile guide wrappings
- PacBay® hook keeper

W|4 POWERCAST 2ND

Code	Model	Length	Class	Cw	Sections	Cover	Transport L.	Weight	Ct
W421-0862-XXH	W4 Powercast 2nd	8'6"255 cm	XXH	40-130 g	2 sec	Padded bag	133 cm	218 g	1

The action and characteristics of the W4 Powercast 2nd Generation rods were carefully designed to meet the demands of modern predator specialists. These rods are designed for spinning reels, casting with lures, spinner baits or even live baits for huge pike. The W4 Powercast 2nd Generation rods are hugely versatile and feature the finest Japanese Torayca® carbon, and the very best in guides and reel seat from SeaGuide and Fuji®.

- Reel Seat: Fuji® VSS
- Guides: SeaGuide XQLS
- Blank: Torayca® High Performance Carbon fibers
- Handle: UltraGrip – high quality EVA
- Reinforced with 1k woven carbon
- SeaGuide® D-Hook hook keeper

W|4 POWERCAST-T 2ND

Code	Model	Length	Class	Cw	Sections	Cover	Transport L.	Weight	Ct
W422-0862-XXH	W4 Powercast-T 2nd	8'6"/255 cm	XXH	40-130 g	2 sec	Padded bag	133 cm	215 g	1

The action and characteristics of these rods were carefully designed to meet the demands of the modern predator specialists. These rods are designed for spinning reels, casting with hard & soft lures, and spinnerbaits for huge pike. The W4 Powercast-T 2nd Generation rods are hugely versatile and feature the finest Japanese Torayca® carbon fibers, genuine spigot joints and the very best in guides and reel seats from SeaGuide® and Fuji®.

- Reel Seat: Fuji® ACS
- Guides: SeaGuide® LS-XQ
- Blank: Torayca® High Performance Carbon
- Handle: UltraGrip – high quality EVA
- Custom made rubber non-slip bottom cap
- Reinforced with 1k woven carbon
- SeaGuide® D-Hook hook keeper

W|4 POWERSHAD-T 2ND

Code	Model	Length	Class	Cw	Sections	Cover	Transport L.	Weight	Ct
W423-0732-XXH	W4 Powershad-T 2nd	7'3"/218 cm	XXH	50-150 g	2 sec	Padded bag	113 cm	196 g	1
W423-0862-3XH	W4 Powershad-T 2nd	8'6"/255 cm	3XH	60-180 g	2 sec	Padded bag	133 cm	221 g	1

Casting XXL Shads for hours might sound like a tough job, but once you lean into a monster pike it is well worth the effort. These powerful Westin Powershad-T 2nd Generation rods make getting there a lot easier, and once you're hooked up you can be sure that the Torayca® High Performance Carbon blank will keep you in control. The W4 Powershad-T 2nd Generation rods have a softer tip, but with a lot of backbone in the blank to set the hooks. Designed for soft lures, but equally good for casting with hard lures, spinnerbaits or other heavy lures for big predators.

- Reel Seat: Fuji® ACS Trigger
- Guides: SeaGuide® LS-XQ
- Blank: Torayca® High Performance Carbon
- Handle: UltraGrip – High Quality EVA
- Custom made rubber non-slip bottom cap
- Reinforced with 1k woven carbon
- D-Hook hook keeper

W4 POWERTEEZ 2ND

Code	Model	Length	Class	Cw	Sections	Cover	Transport L.	Weight	Ct

W424-0842-M	W4 PowerTeez 2nd	8'4"/250 cm	M	14-49 g	2 sec	Padded bag	129 cm	193 g	1

Designed specifically for casting and jigging with soft and hard lure from both the bank and shore, the W4 PowerTeez 2nd Generation rods are a series of extremely powerful rods with extra-fast blank actions. This allows long-distance casting and gives a second-to-none sensitivity, which makes it easy to control and feel your lure, and everything that might happen to it! The powerful backbone of the rods ensures excellent hook-setting capabilities and fighting power.

- Reel Seat: Fuji® VSS
- Guides: Seaguide® LS Ring Guides
- Blank: Torayca® High Performance Carbon
- Handle: UltraGrip – high quality EVA
- Custom made rubber non-slip bottom cap
- Reinforced with 1k woven carbon
- D-Ring hook keeper

W4 POWERSHAD 2ND

Code	Model	Length	Class	Cw	Sections	Cover	Transport L.	Weight	Ct
W425-0802-MH	W4 Powershad 2nd	8'/240 cm	MH	15-40 g	2 sec	Padded bag	125 cm	166 g	1
W425-0802-XH	W4 Powershad 2nd	8'/240 cm	XH	30-90 g	2 sec	Padded bag	125 cm	167 g	1
W425-0902-MH	W4 Powershad 2nd	9'/270 cm	MH	15-40 g	2 sec	Padded bag	141 cm	169 g	1
W425-0902-XH	W4 Powershad 2nd	9'/270 cm	XH	30-90 g	2 sec	Padded bag	141 cm	185 g	1

The W4 Powershad 2nd Generation is a perfectly formed all-round rod made from the finest high-quality Torayca® carbon fibers. Super-responsive, and incredibly sensitive, this is the ultimate rod for working soft lures for a wide variety of different predators. The medium-fast action also works great with hard lures, making these rods the perfect all-rounders!

- Reel Seat: Fuji® VSS
- Guides: LTS Ring Guides
- Blank: Torayca® High Performance Carbon
- Handle: UltraGrip – high quality EVA
- Custom made rubber non-slip bottom cap
- Reinforced with 1k woven carbon
- D-Ring hook keeper

W|4 POWERSHAD-T 2ND

Code	Model	Length	Class	Cw	Sections	Cover	Transport L.	Weight	Ct
W426-0802-XH	W4 Powershad-T 2nd	8'/240 cm	XH	30-90 g	2 sec	Padded bag	125 cm	184 g	1

Casting Shads for all day long might sound like a tough job, but once you lean into one of those monster pike it is well worth the effort. The Powershad-T 2nd Generation make getting there a lot easier, and once you're hooked up you can be sure that the Torayca® High Performance Carbon blank will keep you in control.

The W4 Powershad-T 2nd Generation rods have a softer tip, with the backbone in the blank to set the hooks, while still being sensitive, thanks to the fast progressive action. The W4 Powershad-T 2nd Generation is made for soft lures, but works equally well for casting hard lures, spinnerbaits or other lures for predators.

- Reel Seat: Fuji® ACS Trigger
- Guides: SeaGuide® LS-XQ
- Blank: Torayca® High Performance Carbon
- Handle: UltraGrip – High Quality EVA
- Custom made rubber non-slip bottom cap
- Reinforced with 1k woven carbon
- D-Hook hook keeper

W|4 POWERLURE 2ND

Code	Model	Length	Class	Cw	Sections	Cover	Transport L.	Weight	Ct
W427-0802-H	W4 Powerlure 2nd	8'/240 cm	H	20-60 g	2 sec	Padded bag	125 cm	177 g	1
W427-0802-XH	W4 Powerlure 2nd	8'/240 cm	XH	25-80 g	2 sec	Padded bag	125 cm	180 g	1
W427-0802-XXH	W4 Powerlure 2nd	8'/240 cm	XXH	30-100 g	2 sec	Padded bag	125 cm	183 g	1

The W4 Powerlure 2nd Generation rods are made with high quality Japanese Torayca® carbon fibers which results in a fast-progressive blank that packs plenty of power for the meanest predators out there, whilst having plenty of feel and sensitivity. With these rods it's a breeze casting big lures and shads all day. Just the action alone makes it a must-have rod, but check out the quality of the fittings and you won't be able to resist owning one.

- Reel Seat: Fuji® VSS
- Guides: LTS Ring Guides
- Blank: Torayca® High Performance Carbon
- Handle: UltraGrip – high quality EVA
- Custom made rubber non-slip bottom cap
- Reinforced with 1k woven carbon
- D-Ring Hook Keeper

W|4 POWERCAST 2ND

Code	Model	Length	Class	Cw	Sections	Cover	Transport L.	Weight	Ct
W428-0802-H	W4 Powercast 2nd	8'240 cm	H	6-8lbs/40-130 g	2 sec	Padded bag	126 cm	221 g	1
W428-0802-XH	W4 Powercast 2nd	8'240 cm	XH	8-10lbs/60-180 g	2 sec	Padded bag	126 cm	232 g	1

The W4 Powercast 2nd Generation rods are perfect hybrids between saltwater boat fishing and pike fishing rods. Bottom fishing for plaice and turbot, casting lighter jigs for halibut, or casting shads or lures for pike. It all takes a sensitive rod, with a medium-fast action, and a lot of backbone! Our development team managed to get exactly this type of action out of the finest Japanese Torayca® carbon fibers, resulting in the W4 Powercast 2nd Gen. The unique shape of the extended front handle gives you exact control of every little movement or twitch of your lure.

- Reel Seat: Fuji® DPS
- Guides: SeaGuide® LS-XQ Ring Guides
- Blank: Torayca® High Performance Carbon
- Handle: UltraGrip – high quality EVA

W|4 MONSTERSTICK-T 2ND

Code	Model	Length	Class	Cw	Sections	Cover	Transport L.	Weight	Ct
W429-0792-5XH	W4 MonsterStick-T 2nd	7'9"/233 cm	5XH	120-260 g	1+1 sec	Padded Bag	172 cm	234 g	1
W429-0802-6XH	W4 MonsterStick-T 2nd	8'240 cm	6XH	150-290 g	1+1 sec	Padded Bag	180 cm	243 g	1

The W4 Monsterstick 2nd Generation rods feel as light as an angel when you pick them up, but give it the slightest hint of a fish and it turns into a demon. Lightweight enough to fish with for days on end, you will definitely want this heavy-duty brawler in your corner when you go pike and muskie fishing. When you want to cast heavy lures for record fish you need to bring out the big guns – W4 Monsterstick 2nd Generation is 'the one'.

- Reel Seat: Fuji® ACS Trigger
- Guides: SeaGuide® LS
- Blank: Torayca® High Performance Carbon
- Handle: UltraGrip – high quality EVA
- Custom made rubber bottom cap – Non-slip

- SeaGuide® D-Hook hook keeper

W|4 KAYAK 2ND

Code	Model	Length	Class	Cw	Sections	Cover	Transport L.	Weight	Ct
W430-0702-H	W4 Kayak 2nd	7'210 cm	H	20-60 g	1+1 sec	Padded bag	179 m	143 g	1

The W4 Kayak 2nd Generation is designed to provide kayak, belly boat and small boat enthusiasts with a rod durable enough to perform in these demanding, close-quarter angling environments.

The rod comes with a detachable handle, which has enabled us to make a blank comparable to one-piece rods, but which is easier to transport.

This means the blank is packed with power, but with low weight and an extremely sensitivity tip – this rod will transmit even the gentlest takes to your fingers.

The stiff butt and concentrated power in the mid-section are designed specifically for fighting powerful fish whilst seated. W4 Kayak 2nd Generation is the perfect tool for the passionate small-boat angler!

- Reel Seat: Fuji® SKS
- Guides: SeaGuide® LS Ring Guides
- Blank: Torayca® High Performance Carbon
- Handle: UltraGrip – High Quality EVA.
- Custom made rubber bottom cap – Non-slip
- Reinforced with 1k woven carbon
- D-Ring Hook Keeper

W|4 VERTICAL JIGGING-T 2ND

W431-0622-M	W4 Vertical Jigging-T 2nd	6'2"/185 cm	M	14-28 g	1+1 sec	Padded bag	161 cm	124 g	1

If you are into vertical fishing for pike and zander the W4 Vertical Jigging-T 2nd generation rods are for you. The Torayca® High Performance Carbon fibers give a superior action that enables you to feel every delicate take, no matter how far down your soft lure is. The brilliant detachable handle design makes transportation easier, and yet when you use it, you will swear that this is a one-piece rod. These rods are powerful enough to scrap with the meanest zander and pike, yet as sensitive as a kitten's whiskers when there is a nibble in the offering.

- Reel Seat: Fuji® SKTS
- Guides: SeaGuide® LS-XQ Ring Guides
- Blank: Torayca® High Performance Carbon
- Handle: UltraGrip – High Quality EVA
- Custom made rubber non-slip bottom cap
- Reinforced with 1k woven carbon
- Custom designed hook keeper

2nd
GENERATION

TORAYCA

If you are into vertical fishing for pike and zander, the W4 Vertical Jigging-T Quick Lock 2nd generation rods will quickly become your new best friend. The Torayca® High Performance Carbon fibers give a superior action, allowing you to feel every little take, no matter how far down your soft lure. The brilliant detachable split handle design makes transportation easier, and yet in use, you will swear that this is a one-piece rod.

The W4 Vertical Jigging-T QL 2nd Generation is made with a premium EVA Quick Lock handle, that allows you to increase the length of the rear handle when jigging for maximum control and comfort.

These rods pack all the power and sensitivity you need when targeting pike and zander vertically.

- Reel Seat: Fuji® SKTS
- Guides: SeaGuide® LS-XQ Ring Guides
- Blank: Torayca® High Performance Carbon
- Handle: UltraGrip – High Quality EVA
- Adjustable Quick Lock handle
- Custom made rubber non-slip bottom cap
- Reinforced with 1k woven carbon

2nd
GENERATION

HIGH PERFORMANCE CARBON FIBRE
TORAYCA

The W4 UltraStick 2nd Generation combines the three key attributes that you want in an all-round predator rod. It's light, super sensitive, and with a fast-progressive action. The only problem with that is you will never have an excuse to miss a bite again.

They are not lacking backbone though - you can set the hook hard and extract large fish from cover and weed-beds. Versatility is another terrific strength of these rods. They are just as adept with small and medium-sized wobblers as they are with soft lures. The W4 UltraStick 2nd Generation is made with a detachable handle, making it easier to transport, whilst retaining the feel of a one-piece blank.

- Reel Seat: Fuji® SKTS
- Guides: SeaGuide® LS Ring Guides
- Blank: Torayca® High Performance Carbon
- Handle: UltraGrip – High Quality EVA. Short design, ideal for Kayaks
- Custom made rubber non-slip bottom cap
- Reinforced with 1k woven carbon
- Custom designed hook keeper

2nd
GENERATION

HIGH PERFORMANCE CARBON FIBRE
TORAYCA

If you are in need of a bit more power compared to the rest of our finesse rods, then the W4 Finesse Shad 2nd Generation is the rod for you. The W4 Finesse Shad 2nd Generation rods are a series of light to medium light predator rods. These rods are as versatile as any rod can get, which makes them perfect for a wide variety of fishing styles with both soft & hard lures, targeting species like perch, zander, asp, trout and pike. Made on a progressive fast and sensitive blank, which gives a premium feel and excellent strike detection, while still being powerful enough to set the hook and fight big fish.

- Reel Seat: Fuji® SKS
- Guides: Seaguide® LS Ring Guides
- Blank: Torayca® High Performance Carbon
- Handle: UltraGrip – high quality EVA
- Custom made rubber non-slip bottom cap
- Reinforced with 1k woven carbon
- Custom designed hook keeper

2nd
GENERATION

TORAYCA

The W4 Finesse T&C 2nd Generation (Texas & Carolina) is the perfect light-weight predator fishing tool. These rods are made from the finest Torayca® carbon fibers, which ensures a fast, ultra-light, and sensitive blank that still packs plenty of power to set the hook whether you're targeting perch, bass, trout, zander or pike. These rods are ideal for both soft and hard lures – use them for pitching small hard lures in shallow water, or twitch your favorite soft lure along the bottom. The W4 Finesse T&C 2nd Gen is the perfect all-round tool for any type of light-weight predator fishing.

- Reel Seat: Fuji® SKS
- Guides: Seaguide® LS Ring Guides
- Blank: Torayca® High Performance Carbon
- Handle: UltraGrip – high quality EVA
- Custom made rubber bottom cap – Non-slip
- Reinforced with 1k woven carbon

2nd
GENERATION

TORAYCA

The W4 Finesse T&C-T 2nd Generation (Texas & Carolina) is the perfect light-weight predator fishing tool. These rods are made from the finest Torayca® carbon fibers, which ensures a fast, ultra-light, and sensitive blank that still packs plenty of power to set the hook whether you're targeting perch, bass, trout, zander or pike. These rods are ideal for both soft and hard lures – use them for pitching small hard lures in shallow water, or twitch your favorite soft lure along the bottom. The W4 Finesse T&C-T 2nd Gen is the perfect all-round tool for any type of light-weight predator fishing.

- Reel Seat: Fuji® SKTS
- Guides: Seaguide® LS Ring Guides
- Blank: Torayca® High Performance Carbon
- Handle: UltraGrip – high quality EVA
- Custom made rubber bottom cap – Non-slip
- Reinforced with 1k woven carbon
- Custom designed hook keeper

NEW
2023

It is hard to find a boat rod with more muscle and backbone than the Westin W4 Boat 2nd. These second generation rods feature more strength and sensitivity than the first generation, thanks to improved blank technology, and the incorporation of higher quality Torayca® carbon fibre.

By tailoring the length and action of each model the range covers a wide range of sea fishing tactics and species. Using light pilks for cod and pollack? Fishing a wreck for conger, or going for halibut? Regardless of your target species, there is a rod in this range that will get the job done!

The handle design and action are proven favorites amongst hardcore sea anglers, and the choice of fittings from SeaGuide and Fuji® will stand the test of time. Just lean back and let the W4 Boat 2nd do the work for you.

- Reel Seat: Fuji® DPS
- Guides: SeaGuide® XEG
- Blank: Torayca® High Performance Carbon for superior action
- Specially designed Comfort Cross Gimbal (CCG)
- Premium grade cork handle
- Reinforced with 1K woven carbon

W|4 LIGHT SPIN 2ND

Code	Model	Length	Class	Cw	Sections	Cover	Transport L.	Weight	Ct
W439-0704-L	W4 Light Spin 2nd	7'210 cm	L	3-15 g	4 sec	Padded Bag	58 cm	126 g	1

W439-0964-L	W4 Light Spin 2nd	9'6"/285 cm	L	3-15 g	4 sec	Padded Bag	78 cm	166 g	1

The second generation of W4 Light Spin is perfect choice when you are moving around, but don't want to leave your fishing rod at home. These four-section rods fit perfect in your travel bag, or on your backpack during your fishing trip. These rods have been upgraded with higher grade of Torayca® fibers and resin in combination with a new blank construction for better balance, higher strength and a more responsive blank. These Light/Medium action rods are perfect for trout, perch and other fish in lakes, rivers, streams or along the coastline. We retained the classic and popular premium cork handle design, but upgraded to tangle-free Seaguides® XOHG/XOG guides and a rubber coated FUJI® ACS reel seat for best performance in all weathers.

- Reel seat: FUJI® TVS, rubber coated
- Guides: Seaguide® XOHG/XOG, LS Ring Guides
- Blank: Torayca®
- Premium grade cork handle
- D-ring hook keeper
- Fish measurement marks on blank
- Reinforced with 1K woven carbon

Say hello to the second generation of W4 Spin rods. These popular four-piece W4 Spin rods just got even better. Carry the W4 Spin 2nd generation four-piece wherever you go - they are the perfect travel rods, packing down very small, and are ideal when fishing for sea trout, trout and sea bass. But don't think that just because these are travel rods they don't pack a punch. We have been able to accomplish a perfect four-piece rod with a Medium/Fast action without compromising on rod weight or sensitivity. To make the W4 Spin 2nd faster and more responsive we upgraded to higher quality Torayca® fibers and resin in combination with a new blank construction. Even if you are wading, bank, or boat fishing we just know how important it is to reach out to your favourite reef. We kept the classic and popular premium cork handle design, but upgraded with tangle-free Seaguides® XOHG/XOG guides and a rubber coated FUJI® TVS reel seat for best performance in all weathers. Travelling while fishing doesn't mean you have to compromise with your gear, we made sure of that.

- Reel seat: FUJI® TVS, rubber coated
- Guides: Seaguide® XOHG/XOG, LS Ring Guides
- Blank: Torayca®
- Premium grade cork handle
- D-ring hook keeper
- Fish measurement marks on blank
- Reinforced with 1K woven carbon

Say hello to the second generation of W4 Spin rods. These popular W4 Spin rods just got better. To make the W4 Spin 2nd faster and more responsive we upgraded to higher quality Torayca® fibers and resin in combination with a new blank construction. This enhances the casting distance achievable and the feeling through the rod even more. Even if you are wading, bank, or boat fishing we just know how important it is to reach out to your favourite reef. When fighting a fish, the W4 Spin 2nd features a progressive Medium/Fast action to absorb head shakes and jumps. We have kept the classic and popular premium cork handle design, but upgraded to tangle-free Seaguides® XOG guides and a rubber coated FUJI® TVS reel seat for best performance in all weathers.

- Reel seat: FUJI® TVS, rubber coated
- Guides: Seaguide® XOG, LS Ring Guides
- Blank: Torayca®
- Premium grade cork handle
- D-ring hook keeper
- Fish measurement marks on blank
- Reinforced with 1K woven carbon

2nd GENERATION
TORAYCA

The W3 LiveCast-T 2nd Generation are a series of powerful rods made specifically for precise casting at short to medium range, targeting fishing that have been detected on your echo sounder. They also double-up as great regular vertical fishing rods too. Designed to optimize your fishing when targeting giant pelagic zander or pike in those close quarter combat battles! The W3 LiveCast-T 2nd Generation is made with Torayca® carbon fibers which gives a premium feel. The rod comes with a detachable handle to make transportation easier, whilst it has the feel of a regular one-piece rod. The custom made rear handle provides a perfect grip and gives extra support for your underarm for maximum comfort and control, even on the longest days out on the water.

- Reel Seat: SKTS

The W3 Powerteez 2nd Generation is a series of fast actioned rods with a powerful backbone, which features great casting abilities and a very sensitive tip. Balance is a key factor when jigging or fishing pelagic with soft lures. Thanks to Torayca® High Performance Carbon fibers, the W3 Powerteez 2nd Generation feels like a natural extension of your arm. These are key factors when jigging with soft lures after fish like zander and pike. You will not miss many bites with these rods, even a tentative nip from the most cautious fish has the potential to be turned into a fish in the net.

- Split-handle with premium grade EVA and rubber cork insert
- Reinforced with 1K woven carbon

W|3 FINESSE CRANK-T 2ND

Code	Model	Length	Class	Cw	Sections	Cover	Transport L.	Weight	Ct
W359-0702-ML	W3 Finesse Crank-T 2nd	7'210 cm	ML	5-20 g	2 sec	Cloth bag	110 cm	116 g	1
W359-0702-M	W3 Finesse Crank-T 2nd	7'210 cm	M	10-30 g	2 sec	Cloth bag	110 cm	117 g	1

Ever wanted to fish with braid that behaved like fluorocarbon? Sound like a pipe dream? Well think again - the W3 Finesse Crank-T 2nd Generation rods from Westin have a specially designed blank that compensates for the lack of stretch in braid. This is great news for crankbait fishing fans, who know all too well the benefits of the stretch and density that fluorocarbon line normally offers - now you have the best of both worlds - because Westin is nice like that. You can throw and work those crankbaits all day long and this rod will take it in its stride, but it also has a wonderfully sensitive feeling, thanks to the low weight and the split handle design, that always keeps you in touch with the blank. It is like a 'spidey sense' for your crankbait fishing! Just don't blame us if you get too used to how well it controls your fishing, it won't be like this with every rod!

- Reel Seat: SKTS
- Guides: Seaguide® LS ring guides
- Blank: Torayca® High Performance Carbon
- Split-handle with premium grade EVA with rubber cork insert
- Reinforced with 1K woven carbon
- Braid compensated blank, designed for fishing with modern braided lines

2nd GENERATION
TORAYCA

The W3 Finesse T&C 2nd Generation rods (Texas & Carolina) are excellent rods for all kinds of predator fishing with both soft and hard lures. These rods are light and sensitive, but fast and powerful enough to set the hook in the hard, bony mouth of any predator! They are perfect for casting soft lures or slowly twitching a Texas or Carolina rig along the bottom. You can use them when pitching small hard lures in shallow water for perch and bass, or targeting trout and zander in deeper areas. W3 Finesse T&C 2nd Generation rods are great all-round tools for light and medium style predator fishing!

- Reel Seat: SKS
- Guides: LTS ring guides
- Blank: Torayca® High Performance Carbon
- Split-handle with premium grade EVA and rubber cork insert
- Reinforced with 1K woven carbon

NEW
2023

2nd
GENERATION
TORAYCA

The W3 Finesse Ned 2nd has been especially designed for Ned and Finesse-fishing with soft lures on light jig heads, or when using Texas and Carolina-rigs, or Dropshot. The fast action and sensitive tip give the perfect feeling and control of the Nedworm - bites are transmitted instantly, allowing you to set the hook fast. The white tip wrapping features an excellent contrast to the black coloured blank and is a perfect bite indicator against dark water or a murky sky. The elegant, custom-made rear handle provides a perfect grip and gives extra support for your underarm for maximum comfort and control, even on the longest days out on the water.

- Reel Seat: SKS
- Guides: LTS ring guides
- Blank: Torayca® High Performance Carbon blank
- Reinforced with 1k woven carbon
- Handle: Premium EVA handle
- D-Ring Hook Keeper

W350-0662-XXH	W3 Jerkbait-T 2nd	6'6"/195 cm	XXH	40-130 g	2 sec	Cloth bag	103 cm	178 g	1

The W3 Jerkbait 2nd Generation rods are the perfect tool to have in your boat when targeting big ferocious predators. These medium action rods have all the muscle and backbone you need to cast and jerk heavy lures, set the hook, and bring in monster pike or muskie, while being sensitive enough to make it joyful to use. Even after a full day on the water casting heavy lures, you will not feel any pain in your body, due to the low weight blank.

- Reel Seat: SKC Trigger
- Guides: Seaguide® LS ring guides
- Blank: Torayca® High performance Carbon blank Reinforced with 1K woven carbon
- Handle: Premium grade EVA handle with rubber cork insert

W355-0812-MH	W3 StreetStick 2nd	8'1"/243 cm	MH	5-15 g	2 sec	Cloth bag	127 cm	122 g	1

Get ready for a fishing rod that could quickly become an essential ultra-light alternative to your heavier rods! The W3 Streetstick 2nd Generation rods covers a wide range of fishing types with light weight hard and soft lures. Whether your prize fish is perch, medium sized pike/zander, trout or small spiny critters from the sea - this range keeps you covered. A soft tip, but with a medium-fast action blank, means you can fish and throw lures all day. Grab your shades, your cap and your W3 Streetstick 2nd Gen and you're good to go. We guarantee that you won't be able to catch something on this rod range, without having a huge smile on your face!

- Reel Seat: SKS
- Guides: Seaguide® LS ring guides
- Blank: Torayca® High Performance Carbon
- Split-handle with premium grade EVA and rubber cork insert
- Reinforced with 1K woven carbon

W|3 DROPSHOT 2ND

Code	Model	Length	Class	Cw	Sections	Cover	Transport L.	Weight	Ct
W356-0672-ML	W3 Dropshot 2nd	6'7"/198 cm	ML	4-21 g	2 sec	Cloth bag	103 cm	110 g	1
W356-0802-M	W3 Dropshot 2nd	8'7"/240 cm	M	5-28 g	2 sec	Cloth bag	126 cm	129 g	1
W356-0902-M	W3 Dropshot 2nd	9'7"/270 cm	M	5-28 g	2 sec	Cloth bag	141 cm	140 g	1

A sensitive Torayca® carbon blank with the backbone to set the hook and the power to tame big fish makes up the backbone of the W3 Dropshot 2nd Generation rods. The two-part SKS reel seat is extremely light and offers direct contact to the 1K woven carbon reinforced blank for maximum sensitivity. The blank is made with a super soft solid tip giving more feel and improved bite detection. The flat rear handle is designed to rest on the under arm during fishing for improved comfort and stability. Details like the unique hook keeper also make a big difference. When using a typical dropshot rig simply slide the line and tighten up to hold the dropshot sinker in place, eliminating tangles when moving between spots.

- Reel Seat: SKS
- Guides: LS ring guides
- Blank: Torayca® High Performance Carbon fibers
- Premium grade EVA handle with rubber cork end cap
- Reinforced with 1k woven carbon
- Flat rear handle
- Custom made hook keeper

W|3 FINESSE JIG 2ND

Code	Model	Length	Class	Cw	Sections	Cover	Transport L.	Weight	Ct

NEW 2023

The W3 Boat 2nd has a practical three-section design that makes this rod 'spot on' for all kinds of travelling, no matter if the destination is a Norwegian sea fishing camp, or some tropical island. The second generation of W3 Boat rods have higher strength and sensitivity, thanks to the improved blank technology, and the incorporation of higher quality Torayca® carbon fibre. The Comfort Cross Gimbal is a great alternative to conventional 'stomach puncturing' metal or hard plastic gimbals. It fits perfectly into a fighting harness, and even without a harness landing a monster or two is no problem. The oval XEG guides are some of the toughest saltwater boat guides around and the Torayca® blank offers superior strength and great value for money.

- Reel Seat: Fuji® DPS
- Guides: Seaguide® XEG
- Blank: Torayca® High Performance Carbon for superior action
- Specially designed Comfort Cross Gimbal (CCG)
- Premium grade EVA handle
- Reinforced with 1K woven carbon

TORAYCA

2nd
GENERATION

The W3 2nd generation range of spin fishing rods packs in proprietary technologies to provide a new benchmark in performance at an unbelievable value. The result is ultra-sensitive fishing rods that are also super strong with improved durability. Featuring Westin's exclusive Torayca® High Performance Carbon and combined with super premium reel seats, guides and split handle with premium grade EVA, these rods gives you exemplary performance with spoons, spinners and coast wobblers.

This range of W3 spin rods breaks down into 4 pieces for easy no-hassle transport and storage, perfect when you are on the go between fishing spots.

- Reel seat: SKS
- Guides: Seaguide® LTS
- Blank: Torayca® High Performance Carbon for superior action and casting
- Handle: Split handle with premium grade EVA
- Reinforced with 1K carbon

2nd
GENERATION

TORAYCA

The W3 2nd generation range of Ultralight Spin rods are now revamped and improved ensuring anglers maintain optimized performance that excels in the toughest fishing conditions. The long, light and sensitive W3 Ultralight Spin rods are designed to meet the demands of Norwegian anglers fishing in large streams and rivers for trout and sometimes even salmon. These rods are perfect for using a casting float, spirolino or bombarda to present a small fly on a long leader, or for fishing with natural bait like earthworms. 4-piece blank for easy transport and storage.

- Reel seat: SKS
- Guides: Seaguide® LTS

The updated W3 Powerspin-T is in a class of its own. Now even stronger and with improved durability. When you need to control lures/spoons or spin-flies in powerful currents and dominate big salmon in tough conditions, this is the rod for you. Combine it with your favorite multiplier reel and the neat trigger grip gives you ultimate handling control and comfort in all kinds of weather and conditions. You really can't have more fun – and performance – for the money.

- Reel seat: SKTS
- Guides: Seaguide® LTS
- Blank: TORAYCA® High Performance Carbon for superior action and casting

The W10 Braided line has been developed for anglers seeking the ultimate braided line. Our innovative construction produces a line that combines maximum strength and abrasion resistance with a super-smooth surface. Constructed from premium Japanese Ultra High Molecular Polyethylene (UHMPE) fibers using a 13X (12+1) design with 12 carriers woven around a central CORE carrier to produce a supremely round line with improved strength compared to 8X braided lines. W10 braid uses an "Advanced Ultra High PIC" construction with 56 weaves per inch for a smoother surface and increased abrasion resistance.

In addition, the tighter weave of "Advanced Ultra High PIC" gives the smoothest surface around for longer, more accurate, casts. Casting performance is further enhanced by a Dura-Coating gel process that gives the braid a smoother, hydrophobic surface, reducing water absorption and lowering friction. To achieve maximum color stability, W10 Braid is soaked in dye tanks before being oven cured to 'bake-in' the pigment and finally sealed by a dura-coat for improved longevity.

The W10 Coastal Braided line has been developed for sea trout and saltwater anglers seeking the ultimate braided line. Our innovative construction produces a line that combines maximum strength and abrasion resistance with a super-smooth surface.

Constructed from premium Japanese Ultra High Molecular Polyethylene (UHMPE) fibers using a 13X (12+1) design with 12 carriers woven around a central CORE carrier to produce a supremely round line with improved strength compared to 8X braided lines.

W10 Coastal braid uses an "Advanced Ultra High PIC" construction with 56 weaves per inch for a smoother surface and increased abrasion resistance. In addition, the tighter weave of "Advanced Ultra High PIC"

gives the smoothest surface around for longer, more accurate, casts.

Sea trout and saltwater anglers demand a line with extra stiffness to avoid wind knots caused by casting repeatedly into often fierce onshore winds. To achieve this W10 Coastal features a Double Dura-Coating to give the line more rigidity. The Dura-Coating gel process that gives the braid a smoother, hydrophobic surface, reducing water absorption and lowering friction.

To achieve maximum color stability, W10 Coastal is soaked in dye tanks before being oven cured to 'bake-in' the pigment and finally sealed by a double gel-coat for improved longevity.

Achieving the perfect compliment of attributes in a braided line is a kind of alchemy that requires repeated refinement and testing to produce the finished article. W6 Braided line has been developed using a unique construction process for all-round lure fishing.

We have utilised premium grade Japanese UHMPE (Ultra High Molecular Polyethylene) fibers in the construction of W6 Braid because of its incredible performance and strength.

To achieve higher abrasion resistance and greater strength W6 braid is constructed using a weave specially developed for this line that we call "Advanced High PIC". This 8X (eight braid carriers) braided line has a

- Designed as an all-round 8X braided line for lure fishing
- Premium Japanese UHMPE fibers
- Round profile
- “Advanced High PIC” line construction, with 36 weaves per inch, gives higher abrasion resistance, a smoother surface, and greater strength
- Dura-Coating technology for excellent water repellence, a smoother surface, and lower friction, for longer, more accurate casting.
- Supreme color retention

36 PIC construction (weaves per inch) that gives a stronger line for its diameter. In addition, the tighter weave of "Advanced High PIC" gives a smoother surface for longer, more accurate, casts.

Casting performance is further enhanced by the Dura-Coating gel process that gives the braid a smoother, hydrophobic surface, reducing water absorption and lowering friction.

To achieve color stability, W6 Braid is soaked in dye tanks before being oven cured to 'bake-in' the pigment and finally sealed by a dura-coat for improved longevity.

3M Scotchlite™

YKK
Little Parts. Big Difference.™

DS/EN ISO 12402-6

- Material: PU Coated 189Tx320D Taslon, taped seams
- DS/EN ISO 12402-6 certified
- 8 practical pockets
- Integrated light weight brace system
- High-viz, yellow fold-in hood
- K-webbing 64/36 reinforcement on knees and backpart
- Integrated adjustable neoprene belt
- Adjustable knee straps
- Front pocket Water-resistant "easy grip" YKK zippers
- Flexible light weight foam
- 3M Scotchlite reflective tape
- 6 "easy to access" pocket
- 2 fleece insulated pockets
- Neoprene sleeve cuffs
- Double adjustable leg cuffs
- Perfectly fit designed for the typical Scandinavian build
- Radio/phone pocket on shoulder (not waterproof)
- Efficient mesh drain by the cuffs and ankles
- Extra high collar with soft padding for optimized wind protection
- New, improved YKK main zipper construction

This flotation suit is designed and developed with a single purpose – to create the ultimate flotation suit by all measures. From the very beginning the suit is designed to fit and meet the demands of the typical hardcore angler. Safety, durability, practical details and a close fit that still allows the wearer to move around freely are all important characteristics of this suit. All are characteristics that you will appreciate every time the weather turns bad. Upon request from several sea fishing camps we have made a new zipper design on this suit by using the best available YKK zipper and making sure no part of the fabric can get trapped. All of this is done because we know that if a flotation suit can stand extensive rental use, it will withstand anything!

YKK
Little Parts. Big Difference.

- Material: PU Coated 210D Nylon with taped seams
- DS/EN ISO 12402-6 certified
- 9 practical pockets
- Integrated lightweight brace system
- Highviz, yellow fold-in hood with 180° view window panels
- 600D Nylon Ripstop re-enforcements on knees and back part
- Integrated "button fixed" belt
- Adjustable knee straps
- Chest pockets with water-resistant high viz yellow zipper
- Flexible lightweight foam
- Solas reflective tape with improved Zig-Zag stitching
- Easy access inner pocket by main zipper
- 2 fleece insulated pockets
- Neoprene sleeve cuffs
- Double adjustable leg Velcro
- Radio/VHF pocket on left shoulder with size indication and window (not waterproof)
- DS/EN ISO 12402-8 certified whistle
- Locking loops for attachment of an inflatable vest
- Efficient mesh drain by the cuffs and ankles
- Extra high collar with soft fleece for optimized wind protection

The transparent 180° view window panels integrated in the hood, the extra high soft fleece collar and the easy access inner pocket are just some of the features anglers will appreciate on the W4 Flotation Suit. Quality and functionality were the main priorities when designing this suit, but of course our designers also took hard core fishing and sea angling into the equation. The brace will be highly appreciated on those calm, sunny days but it's when the going gets tough that important features like the very best waterproof materials, the right choice of buoyancy materials and a perfect fit really makes a difference.

W|4 LIGHT SORONA JACKET

YKK® Little Parts. Big Difference.™ DuPont™ Sorona® bio-renewably sourced fiber

- Outer material: 400T nylon
- Inner lining: 400T nylon
- Filling: 100 g Dupont Sorona® ECO-efficient performance fiber
- YKK® front zipper
- 2 side pockets with SBS® zippers
- 2 open inner pockets

The ideal insulating solution for just about every weather situation, our W4 Light Sorona Jacket is lightweight with a 400T nylon ripstop shell and 100 g Dupont Sorona® filling. The Sorona jacket can be used as a 2nd layer or on its own. Softshell side panels and shoulder area offer extra comfort and mobility. Two zippered front pockets hold your go-to essentials where they belong. This lightweight insulation is highly packable and great for your next fishing adventure.

B01-685-057

B01-685-079

If you are looking for one of the strongest and most durable tackle boxes ever seen in fishing then look no further! The W6 Lure Vaults are designed to stand the test of time. Stay organised with the included inserts, suitable for both soft and hard lures. Customise the boxes just the way you want them by arranging the inserts. If you want to use bigger lures up to 30cm simply remove the inserts and use the box as your

"Game" box. Find your lures fast, thanks to the crystal clear lids that are made from impact-resistant Polycarbonate. The U-profiles inside the lid keep the contents 100% in place during transport. The base is made of highest quality Polypropylene and every box is fitted with sliding locks, a carry handle and highly durable hinges made of high-quality plastic.

W|6 ROLL-TOP DUFFELBAG

*Westin® accepts no responsibility or liability for improper use and we accept no responsibility for damaged electronics. We do not replace damaged electronics.

- L (52L): 59 x 60 x 31cm / XL (85L): 96 x 60 x 31 cm
- Material: 420D Nylon and 600D Oxford with waterproof TPU coating
- Heavy duty waterproof materials - light and extremely durable
- YKK® water-repellent zipper
- UTX-FLEX® buckles
- Carry handle
- Interior transparent pocket – waterproof
- Air Valve – to release air for compression
- Bag is waterproof

The W6 Roll-Top Duffelbag will keep extra clothing, tackle and other bits and pieces sealed and dry during a long day on the water. The use of 420D Nylon and 600D Oxford with a long lasting TPU coating makes this bag light, extremely durable and - even more important - waterproof. The roll top system seals off everything and an interior transparent pocket will keep documents, a phone or a wallet safe and organized. The bag also features an outer water-repellent storage pocket, carry handles and high quality UTX-FLEX® buckles.

W|3 LEG BAG

NEW
2023

- 30 x 21 x 7 cm
- Material: 660D/210D Diamond Pattern Polyester with coating
- One lure box (20 x 14 x 4 cm)
- Three pockets
- Adjustable waist and leg strap
- One clip to attach accessories
- One velcro tool strap
- Padded back for comfortable carrying
- Oversized zipper

The W3 Leg Bag is ideal for bank fishing and street fishing. Thanks to the strap attachment around the waist and leg the W3 Leg Bag gives more movement and reduces pressure on your shoulders compared to a regular backpack. The W3 Leg Bag swallows all you need - it features three pockets, one lure box, a velcro tool strap and a clip to attach your accessories. The padded back means it is comfortable to carry all day long.

A deadly bait for lethargic bass looking for an easy meal, the Westin CreCraw is part crawfish, part creature bait. Up top, its swimming claws move independently of one another, and start creating action as soon as the bait hits the water. Meanwhile, fluttering tentacles and legs create a lifelike action teasing bass into a big bite. Its wide profile ensure the

CreCraw swims predictably in the water, avoiding unwanted rotation, while hook slots in the back and belly make rigging a breeze. The CreCraw takes American action cues and combines them with Scandinavian lure design in one of Westin's most detailed soft plastics to date.

- Free from toxic phthalates
- Anise scent
- Weedless design
- Swimming claws
- Tentacles and cylinder-shaped legs
- Hook slots in the back and belly for EWG/worm and offset hooks, T&C rigging and normal jigheads
- Perfect for jigging, punching, flipping and more
- Stable action thanks to a wide design and swimming claws

The Westin Ned Worm will conjure up fish on even the slowest days, bringing success when all else fails.

This long-lasting lure is made of a super-elastic, floating and strong TPR. Its tapered design gives life-like tail movement that responds to every movement of the rod tip. The salt-infused body gives the Ned Worm the

perfect buoyancy and realistic stand-up lure action to perfectly imitate a feeding or wounded prey on the bottom. To make this lure even better we added an irresistible scent.

The Westin Ned Worm can be rigged in numerous ways. Try it on a Ned rig, Dropshot, or rigged Wacky-style.

NEW
2023

- Super-elastic and strong TPE material
- Floating
- Can be rigged weedless
- Fish catching scent
- Slim profile for increased hook-up ratio
- Curl tail with hollow cylindrical chamber
- Do not store TPE with other lures

Worms catch fish and the Ned Worm Curl combines the slim body of a worm with a thin curl tail that creates a kicking, twisting action that drives fish crazy. We have also added a hollow cylindrical chamber at the end of the tail that helps the tail stand up, and produces small air bubbles when the lure is moved. The hollow chamber creates a unique irregular movement in the tail. It also acts as a trigger point that flutters around enticing fish to bite when the lure is on the bottom. The Ned Worm

Curl is super-elastic and soft, yet extremely durable. The buoyant TPE formula ensures it always stands up from the bottom - the key to success on tricky days.

Rig the Ned Worm Curl on a Ned rig, jig head, EWG / worm, or offset hook. It will swim on a steady retrieve, on the drop, or crawled along the bottom, making it incredibly versatile for perch, bass and other predatory fish.

Imagine if you could combine the effectiveness of a paddle tail into a curl tail bait? The Swimming Worm perfects this combination creating an awesome swimming worm-style bait that are the go-to for many US Bass Anglers. The tempting Swimming Worm has been especially designed to cover a lot of water on tricky days. Swim it in mid-water or through grass, crawl it along the bottom, or jig it in and around structure. The

Swimming Worm was developed especially for medium to fast retrieve speeds to cover lots of ground quickly. The lure material gives the perfect combination of softness and durability.

Rig the Swimming Worm on an EWG / worm, or offset hook for weedless presentations and fish it on a Texas / Carolina rig, or a traditional jig head.

Take a poll of the best bass anglers in America and they'll almost all tell you one thing - stick baits catch bass, period. And, hey, we love to catch bass.

An enhancement on the tried-and-true stick bait, the Westin Stick

Worm shimmies to the bottom thanks to a unique, V-shape body design. Two thicker middle sections ensure O-rings and hooks aren't going anywhere, while a heavy peppering of Nasty Worm Scent makes sure no fish - or human - can ignore the potent presence of the Stick Worm.

The humble bloodworm is part of the staple diet for just about every kind of fish - think of it as the bread and butter of the fish world. So, when we sprinkled some of our magic Westin-dust on this iconic bait, you can expect it to be a fantastic fish catcher.

BloodTeez, a supersoft, flexible and incredibly life-like soft lure that has been pumped up in size and made way more durable than the real thing - meaning you can catch more for longer.

Once you've cast it, let it sink to the bottom and give the rod a gentle shake before letting the line slacken. Once it's back on the bottom, fish it however you want - a slow or fast jig will bring you success. The lure is primarily designed for dropshot nose-hooking or wacky rigged but can also be used with a micro jighead for street fishing styles.

So, what are you waiting for? Get yours today and let the blood flow!

This fork tail body is ideal for vertical fishing. It has the perfect softness and movement to tease any old zander and to react on even the slightest twitch of a rod tip. The pre-shaped front makes it easy to fit onto a Westin RoundUp jig head. Westin TwinTeez has an interior, horizontal

chamber to hold one of the glass/stainless steel rattle-sticks included in the package. Compared to ordinary rattle-sticks the glass rattles maximizes the rattle acoustics.

- V-Tail design
- Specially designed for bottom vertical fishing
- Hook slot in belly
- Optimized flexibility
- Realistic oversize eyes

Version II of the legendary TwinTeez is packed with new features to improve your odds. We have added a realistic head with gill details for a more natural look and the oversized eyes act as a strike point for big mean predators. TwinTeez V2 is equipped with a slim V-shaped head design so it cuts the water and drops faster to the fish you are targeting.

V-Tail design for delicate presentation with small shakes or twitches. The TwinTeez V2 is specially designed for bottom vertical fishing for zander, perch and pike, but try it on tricky pelagic fish or on a dropshot rig and a small stinger – deadly!

The RingCraw combines a fantastic action with great water displacement, enticing crawfish profile, and anise scent attractant. Jig it or rig it and hold on tight! You'll have the bass, perch and other crawfish loving predators fighting over this bait. Infused with a tasty dose of salt in the belly that causes fish to bite and not let go, but also gives the bait a balanced

swimming action. The RingCraw features a stocky deep-ribbed body and double curltails with paddle tips for consistent, subtle action even at very slow speeds, and open ribs on the back for streamlined rigging. Westin's level of detail is unmatched in this bait. The profile and action will attract plenty of attention, even in heavy cover.

The Bullteez Curltail, the name says it all. A combination of the BullTeez and a curltail. This lure is the perfect complement to the well-known big fish magnet the Bullteez Shadtail. With its rolling action and fluttering curltail, this lure seduces even the trickiest fish to attack. Retrieve your Bullteez Curltail super-slow in deep water, or speed it up and fish it fast over shallow weeds. This is the perfect choice for predators such as pike,

perch, and zander. The BullTeez Curltail can easily be fished with shallow rigs, or right down in the depths with a regular jig head. For a weedless presentation with an offset hook we have equipped the Bullteez Curltail with slots in belly and back. Perfect for fishing round structure and through weeds!

The BullTeez Curltail, the name says it all. A combination of the BullTeez and a curltail. This lure is the perfect complement to the well-known big fish magnet the BullTeez Shadtail. With its rolling action and fluttering curltail, this lure seduces even the trickiest fish to attack. Retrieve your Bullteez Curltail super-slow in deep water, or speed it up and fish it fast over shallow weeds. This is the perfect choice for predators such as pike,

perch, and zander. The BullTeez Curltail can easily be fished with shallow rigs, or right down in the depths with a regular jig head. For a weedless presentation with an offset hook we have equipped the BullTeez Curltail with slots in belly and back. Perfect for fishing round structure and through weeds!

Life-like lures in all shapes and sizes have been popular for decades, yet few have ever come close to those handmade by Tomy's Bait. Now, we are pleased to announce that Westin have partnered with Tomy to make his Original Perch lure design available globally.

A lifetime's fascination with fish has given Tomy an unrivalled understanding of their behaviour. From keeping fish in aquariums, to scuba diving with wild fish, to fishing for them, Tomy became obsessed with developing artificial baits that better mimicked the natural food of predatory fish.

First created in 2015, Tomy's Original Perch is perhaps his most famous lure. Developed to mimic a small perch, which is in most venues, an important part of the diet of predatory fish. The Original Perch exemplifies Tomy's attention to detail in the search for the most life-like design possible. Pushing the boundaries of hand-made lure design through contin-

ual development, the Original Perch is now at the pinnacle of lure design. The dynamic shape of the Original Perch was later refined with external fins to give a more life-like appearance. Combined with the incredibly realistic hand painted finish, the Original Perch proved irresistible to predatory fish from the start, and its reputation has grown internationally as the designed has developed and been adopted by lure anglers 'in the know'.

The upward turned design of the paddle tail on the Original Perch has become a signature feature in Tomy's lures, and gives these lures a unique action. Not only does the tail design give the lure a unique and realistic movement, but it also beats at slow speeds, including whilst free-falling when the retrieve is paused. Fished on either a steady or slightly erratic retrieve, the Original Perch has a super-effective action for all predatory fish.

The stickleback is the fatty and protein packed snack of choice for a wide range of toothy predator fish – and now you can fish one thanks to Westin. Stanley the Stickleback soft lure is a 3D scan of the real thing and can be fished comfortably in both saltwater and freshwater.

Made from a super soft and flexible plastic, Stanley is just at home on a light traditional jighead or on a dropshot rig – he's not fussy, but he is tempting! Predators of all shapes and sizes will be attracted to its erratic swimming action, paddle tail, active eyes and hand painted colour details.

ZanderTeez has a unique mix of fish-catching features. The shad tail with a slender wrist in combination with the body shape gives two swimming actions in one bait. The tail is kicking fast from one side to another while the body is moving slowly in a rolling belly-flashing swimming action. A

super-hot and deadly action! If that's not enough, the life-like imitation of a zander, the realistic eyes and hand painted color details will do the trick. Perfect for spin fishing and vertical jigging for predators like perch, zander and pike.

Watch your speed with this incarnation of Ricky the Roach – the shorter tail allows a smooth and slow glide through the water, while the big shad tail offers a faster and more erratic action. Whatever you choose, this lure bursts into action as soon as it hits the water and has a tight rolling body action.

It looks just like a real roach – in fact, some coarse fisherman would be happy to catch this little guy, so the predators will love to eat him. Perfected for jigging and casting for predators like perch, zander and pike.

Kick-start your predator fishing with the Westin KickTeez Shadtail – a super effective soft lure that is so easy to rig, it almost makes fishing too easy. The lure features a unique inner channel for both jighead hook and stinger which gives you added stealth and a far more natural presentation and swimming action. The lure also features a vertical hole that goes from the back and through the belly, the KickTeez will easily bend when

the fish strikes, ensuring better hook-ups! It swims brilliantly in any water, still or fast current. Zander, pike, perch and sea bass won't be able to resist this amazing looking lure and they won't be able to let go once they bite down on the well-concealed stinger. Fishing a soft lure couldn't be easier, or more deadly!

- Easy action paddle tail
- Hand painted detailed colors

Hypnotize them with HypoTeez. Named after the Latin name of the smelt (*Hypomesus Olidus*), this lovingly hand-painted little critter looks so much like a real smelt its mother couldn't tell them apart. Cast it out and

it starts swimming as soon as it hits the water. And as it wiggles past those monster perch and hungry zander, fixes them with its realistic fishy eyes and outstanding swimming action, they're going to be helpless to resist.

Based on the hugely successful Westin Hypoteez, this new version of one of our most popular soft lures features an extremely life like, tight and erratic swimming action thanks, in part, to its extra inch in length. The lure can easily be fished close to the surface when shallow rigged, or right

down in the depths with a jighead. Its impressively realistic fins and belly fins may fool you into thinking you're fishing livebait – and the predators too, they won't be able to resist.

Want to catch a big one? Then the BullTeez is the ultimate choice for big predators like pike, zander and perch. The shad tail in combination with a slender wrist creates a seducing wriggling and belly-flashing action – even at low speed. Just this wriggling movement attracts and fools

the really big fish into attacking the lure. BullTeez can easily be fished with shallow rigs or right down in the depths with a regular jig head. For weedless presentation with a big offset hook we have equipped the BullTeez with slots on belly and back. Perfect for fishing into the reeds!

We have combined the shape of the legendary ShadTeez and ShadTeez Slim to create the ShadTeez Hollow.

Look carefully and you will notice that this is no ordinary lure. The large air chamber, combined with the holes in the flanks, creates a lure that folds easily – giving a much higher hook-up ratio than a solid-bodied lure. Perch and zander anglers will especially appreciate how easily it folds, getting the lure in the perfect position in the mouth. You will hook more fish than the guy next to you, that's for sure.

The holes in the sides of the lure also allow water to flow through the body, creating a new dimension of fish-attracting turbulence for the first time in a ShadTeez.

Want to rig this lure weedless? No problem. With hook slots in the back

and belly you can hide the hook, and fish this lure through dense cover, yet as soon as a fish bites down it's game-on!

The solid head of the lure gives a firm grip point for your hook, keeping it in the optimal position for more hook-ups, cast after cast. Fish the ShadTeez Hollow on a normal jighead, or a dropshot. On a Ned Head the lure comes to rest at the perfect angle on the bottom, imitating a feeding bait fish.

Fish the ShadTeez Hollow fast or slow, the lure will track perfectly no matter the speed. Want to go really slow? With its slim tail, paired with the soft and optimised body design, this lure will keep swimming with just the slowest of retrieves.

ShadTeez Hollow – The game is about to change.

This slim and slender lure is sure to have your target fish drooling with its enticing wriggling action that is incredibly effective at many different retrieve speeds. It is a smaller brother to the existing 22cm and 27cm versions of this lure, but its small size gives it a little more versatility.

Hungry predators will simply inhale the lure, giving you more guaranteed hook-ups. Rigged on a light traditional jighead or on a dropshot rig, this lure can offer you a lot.

Puts other shads in the shadow, ShadTeez is perfected down to the smallest detail. The deep body, slender wrist and wide tail create a rolling, belly-flashing swimming action - even at low speed, which leaves big

predators spellbound. It's perfected for jigging, spinning and vertical fishing. By imitating a mildly wounded panicking fish, you'll find your personal best attached to your line in no time at all!

This slim and slender lure is sure to have your target fish drooling with its enticing wriggling action that is incredibly effective at many different retrieve speeds. It is a smaller brother to the existing versions of this lure,

but its small size gives it a little more versatility. Hungry predators will simply inhale the lure, giving you more guaranteed hook-ups. Rigged on a micro jighead or on a dropshot hook this lure can offer you a lot.

What happens when you combine one of our most versatile and well-loved lure shapes and make it a hollow topwater lure? NON. STOP. ACTION. That's what! Swim Hollowbody is packed with features – like a weedless design, an attractive silicone skirt, and hand-painted details – and is so easy to fish, even your worst fishing buddy will have success with it. Swim is easy to fish with a simple walk-the-dog retrieve right on the surface. You can also jerk it down below the surface – keep good line

tension and work with your rod to create an erratic swimming pattern. The Swim Hollowbody benefits from a custom-made rubber ring designed to stop water entering the hollowbody – eliminating one of the most common frustrations with this type of lure. This Swim may be soft, but he's tough and he's ready to rumble with monster bass and other predators around.

In France, frog legs are a delicacy – on our latest lure creation, they are a work of art! Freddy the Frog comes hopping onto the scene as your new favourite topwater bait, with a crazy, crawling action and those free-moving, jointed legs that will stir curiosity in the most cautious of predator fish. His sexy moves on the surface are complemented by a glass rattle stick with internal steel balls that announce to every predator

within the vicinity that frog is back on the menu. Just a simple cast-and retrieve method will bring some incredible surface action – we spent a long time perfecting the action of this lure and then perfected the lure with a great hook-up ratio and a range of realistic and detailed colours and patterns. Freddy is ready to take on the big predators of any water.

- UK Design Registration No. 6120627
- Norwegian Design Registration No. 086992

The Spot-On Twin Turbo really exceeded our expectations. This powerful topwater bait has a unique patented design that makes it irresistible to surface-feeding predators. The wide profile and life-like fish-patterned body, paired with realistic eyes, makes this a hard target for bass, snook, perch, redfish and sea bass to resist. The wide head creates a wake on the surface, whilst the twin propellers move independently of each other, one running clockwise, the other counterclockwise, to create unique fish-attracting sound. Combined with the low-frequency internal sound chamber, the Spot-On Twin Turbo announces its presence like no other

lure. Super easy to fish, it pops whatever speed you retrieve. Because the twin propeller blades turn in opposing directions the lure keeps its stability, no matter how fast or slow you retrieve it. The super tough semi-soft propellers fold flat against the body when casting, creating less resistance, giving longer and more accurate casts. Then, when a fish bites down, the propellers fold giving better hook-ups. Pause the retrieve and the Spot-On Twin Turbo sits tail-down, the ultra-sharp hooks at the ready for any predator that strikes. The design of the Spot-On Twin Turbo is so unique that it is protected by a Worldwide Design Patent.

HYPOTWIST PROPBAIT

Code	Model	Length	Weight	Density	Trade Unit

What would you say if we said we'd given HypoTeez a twist – literally? The HypoTwist is a super-realistic topwater hard lure based on that old favourite, but with a separate soft shad tail that has incredible movement the second it hits the water. The fact it's rotating at the back of this lure also helps to create a real racket on the surface, causing plopping sounds

and disturbances that will stir the predators lurking below. You can fish HypoTwist fast or slow and with pauses if you like – it's a versatile snack that big bass, pike, perch and other surface hunters will love. Try it out and be ready for a blow up like never before.

HYPOTEEZ INLINE

He glides to the left, he glides to the right, that HypoTeez lure makes the big fish bite! This version of a Westin favourite has an unrivalled side to side kicking action and is perfectly balanced to stay right in the strike-zone for big bass and pike.

What is great about this HypoTeez glide bait despite its stunning good

looks and amazing colours, is the versatility. Whether he is on a steady retrieve, variable speed with spin/stops or being walked, he looks like an all-you-can-eat buffet for predator fish of all different kinds. With a medium retrieve he even creates a wake on the surface – a deadly secret weapon that is bound to hypnotize them!

Real Rudd
P032-552-007

This little hard nut takes on the toughest predators and wins every time. Small, but perfectly proportioned, and so realistic even a mother roach could love it. Little Ricky differs from his bigger, hybrid brother in that it's hard through-and-through, with four reticulated joints to get him swimming in that tantalising Westin S-shape. It's stunning when spin

fishing – just twitch it with regular stops to create an irregular action, get those joints clacking and bring in those hungry predators. Comes in several irresistible colours, from realistic to the sharper, brighter trigger colors, all hand painted down to the smallest detail.

RICKY THE ROACH SWIMBAIT

P033-136-023 40 g

Ricky is sick of getting eaten. So he's gone away and returned with a new, tough, hard lure body to put off those hungry predators. The bad news for him is he's made himself even more irresistible. His realistic body joints create an amazing swimming action and a clacking sound that stirs the interest of big pike, perch and bass. Ricky also has semi soft fins to further add to his visual appeal.

An incredibly easy lure to fish – you just need to cast Ricky out, then fish him at the desired depth in a steady retrieve. Try adding some occasional stops and vary your speed to trigger strikes from more wary predators. So, bad news Ricky. You tried, but you're now just an even tastier snack for the big mamas!

MIKE THE PIKE SWIMBAIT

Code	Model	Length	Weight	Density	Trade Unit
P035-XXX-042	Mike the Pike SwimBait	22 cm	80 g	Sinking	4

- Material: ABS Plastic

- Optional eyelets (Top: tighter S-Shape action
Front: more rolling action)
- Realistic semi soft fins
- Life-Like Lure
- Hand painted detailed colors

Crazy Firetiger
P035-063-042

There are few sounds better in pike fishing than the smashing of this super predator's teeth against a hard lure – and Westin will help anglers to hear this beautiful sound with the introduction of a hard lure/swimbait edition of its incredible Mike the Pike. Perfect for trolling and casting, this sinking lure is arguably one of the most realistic imitation pike hard

Pike
P035-169-042

baits ever made – triggering the natural predatory instinct of these freshwater crocodiles. Its slow-roll swimming action is exactly the kind of movement that stirs big pike into moving in for the kill. Made in sizes and colours to attract the big mothers, this lure is great for typical, shallow pike waters.

- Material: ABS plastic
- Lead Free
- Ultra-sharp carbon steel hooks
- Full wire-through-body construction
- Long casting design
- Hand painted detailed colors
- Great multi-species lure – Pike, Perch, Bass, and Muskie
- Running depth: 0-1 m / 0.5-2 m / 1-3 m

SWIM GLIDEBAIT

Code	Model	Length	Weight	Density	Trade Unit
P036-XXX-003	Swim Glidebait	6.5 cm	9 g	Suspending	4
P036-XXX-154	Swim Glidebait	10 cm	31 g	Low Floating	4

P036-XXX-023	Swim Glidebait	15 cm	107 g	Suspending	4
P036-XXX-156	Swim Glidebait	15 cm	115 g	Sinking	4

The original Westin Swim Glidebait is a well established favorite amongst the pro guides, who are confident that all of their clients can easily cast and catch fish with it – it's as simple as that! You can fish this multi purpose bait with "pull and wind" or on a steady retrieve, slow or fast, to create the action of a wounded, panicking baitfish and the panic can be

increased with faster retrieves and regular pauses. As soon as the reel starts turning the unique S-curve swimming action of the Westin Swim will give you the very best odds. A wide selection of sizes, sink rates and proven colors makes the Swim a versatile fish-catching machine. Westin Swim – your secret weapon.

PERCY THE PERCH CRANKBAIT

Code	Model	Length	Weight	Density	Trade Unit
P039-XXX-012	Percy the Perch Crankbait	10 cm	20 g	Floating	4

- Material: ABS Plastic
- Lead free
- Running Depth: 0,5 – 2 m
- Ultra sharp and strong treble hooks
- Full wire-through body construction
- Life-Like Lure
- Ultra Sonic rattle balls
- Integrated long cast system
- Hand painted detailed colors

Bling Perch
P039-023-012

Dull Perch
P039-087-012

Fancy Firetiger
P039-094-012

Small yet mighty – Percy the Perch's harder brother is a big fish catcher with a serious attitude problem.

Designed to be a near perfect copy of the real thing, Percy has a fantastic swimming action that is so good, it will probably scare the life out of smaller silver fish in the area as well as attract the larger predators

looking to make the hunter become the hunted. The lure has a sharp and aggressive swimming style, which perfectly mimics a perch and also creates disturbance in the water to attract the attention of hungry monsters.

MIKE THE PIKE CRANKBAIT

Metal Pike
P040-145-020

Pike
P040-169-020

Get ready for an explosion from below as big predators rise to smash the floating Mike the Pike hard lure – arguably one of the most realistic pike imitation hard lures ever created. This lure has got the attitude to take on the biggest predators out there. Mike has a super aggressive rolling

action and is ideal for both casting and for trolling. It sits high in the water, just screaming out to pike and other predators that an easy meal is in the area. Made in sizes and colours to attract the big mothers, this lure is great for typical, shallow pike waters.

JÄTTE CRANKBAIT

Code	Model	Length	Weight	Density	Trade Unit
P041-XXX-030	Jätte Crankbait	17 cm	47 g	Floating	4
P041-XXX-045	Jätte Crankbait	23 cm	101 g	Floating	4

- Material: ABS plastic
- Lead Free Construction
- Hook size: #2 / #1/0
- Ultra sharp and strong treble hooks
- Running Depth: 2-4 m / 2-6 m
- Full wire-through-body construction

Jätte 17 cm

The Famous "Westin roll" – the unique rolling movement of these predator lures – is the trademark of Westin Jätte. It has an almost magical effect on pike that seem to ignore other lures. Days and years of carving, adjusting and testing was used when the Westin family created their first lures with this superior rolling action. For many years the 17 cm Westin Jätte has been a "must" in the lure box selection of any Scandinavian big pike hunter. It is perfect for depths between 2 and 4 meters and it has exactly the same "Westin roll" as the first lures created many years ago.

Jätte 23 cm

This old legend needs no further explanation. In Scandinavian mythology a Jätte is a giant. This old giant wobbler has always been one of the most consistent big pike catchers, as well as one of the most popular lures in many parts of Scandinavia. It is the perfect big fish trolling lure and through the years Westin Jätte has accounted for a staggering amount of 10 kg + pike.

This chunky little guy is like a snack-size candy bar for perch and bass. Both shallow runner (SR) and deep runner (DR) versions of Baby Bite have very tight swimming actions with just enough craziness to attract even the weariest of hungry predators. The well-tested, low density of the lure means that it stays in the right strike zone longer when you perform a

spin-stop retrieve, however it is equally effective with a straight retrieve. This cute little baby will cause chaos as soon as it hits the water - in fact, you may even make a few perch cry, because catching them is just too easy with Baby Bite!

The MegaBite Deep Runner is your new deep-diving buddy - a perfect snack for a wide range of predatory species like perch, zander, bass, and pike. This crankbait has a wide aggressive swimming action, and a big lip that takes it quickly down through the water column. During spin-stops

the MegaBite DR wobbles towards the surface due to its large body-construction with air chambers inside. This allows long spin stops, which often trigger strikes, or enable it to be bounced along the bottom.

He's fat, he's grumpy and he's about to get bitten – FatBite is the ideal shallow running hard bait for a wide variety of species. Perch, bass, pike and trout will be queuing round the block to sink their teeth into this little fatty, thanks to a large profile and a violent rolling and shaking action.

He's also a lure who wants everyone to know how grumpy he is – internal ultra sonic rattles make a big disturbance. This lure comes into its own on shallow waters, smaller ponds and canals and quickly charges to the surface when carrying out a spin-stop.

The deadly BuzzBite Shallow Runner is one of the hottest crankbaits to hit perch fishing in a long time. All the key features are here – a tight wobble, shallow running, a highly detailed design, quality components, and realistic eyes. Its buoyancy allows you to pause the retrieve and let the lure ascend slowly towards the surface, increasing its appeal to wary

fish. Almost silent, with a high-frequency rattling action that adds to the fish-catching attraction. Proven to catch big, wary perch time and time again! Designed for perch and trout fishing, but equally deadly for other species.

RawBite has a tight vibrating wobbler action that drives predators wild! Its chubby little profile looks like a nice easy snack as it limps and twitches out of the gloom, and up close, its ultrasonic siren song makes them open their mouths in awe and take the bite that seals their fate. Perfect for

trolling or casting for big, nasty pike, zander and other predators, the RawBite sports an integrated long cast system, where the steel ball moves to the tail to aid long casting and settles back into the belly when it starts to fish, to give it an irresistible swimming action.

Adding to our "Bite" range an absolutely tremendous Jerkbait that we simply had to call "Jerkbite". This bait took a full two years to perfect and the result speaks for itself. Designed to be fished as a jerkbait / twitchbait in any conditions. Fish it fast and aggressively jerking your rod with short or longer pauses, depending on the mood of the fish. During the colder months fish the Jerkbite with longer pauses between each twitch. Even on a steady retrieve you get a fantastic action out from this slim bait. The key to the strike are those pauses when the lure stays right in the

strike zone thanks to the perfect balanced suspending action. This bait will clean up when everything else fails. Jerkbite features our integrated long cast system where two steel balls drops into the tail when casting and settle in the belly on the retrieve. This system ensures long and accurate casts and adds to the extremely effective darting action - just like a panicking baitfish. The Jerkbite is made from the finest materials with the strongest, sharpest hooks, and is ready for action whatever the predator you seek.

JERKBITE SR JERKBAIT

Code	Model	Length	Weight	Density	Trade Unit
P186-XXX-135	Jerkbite SR	13.5 cm	22 g	Floating	4

- Material: ABS plastic
- Lead free
- Ultra-sharp carbon steel hooks
- Realistic Eyes
- Hand painted detailed colours
- Designed to be fished high up in the water column steady retrieve or as a jerkbait / twitchbait on shallow water
- Running depth: Shallow Runner (SR) 0,5-1,5m
- Integrated long cast system

The big brother of the Jerkbite family. Fish this lure as a jerkbait / twitchbait in shallow water, or on a slow and steady retrieve just below the surface. Even on a steady retrieve you get a fantastic action out from this bait. Jerkbite SR 13,5cm features our integrated long cast system

where two steel balls drops into the tail when casting and settle in the belly on the retrieve. This system ensures long and accurate casts and adds to the extremely effective darting action - just like a panicking baitfish. Use it for big bass, zander during night, pike and other predators.

P10SR CRANKBAIT

Code	Model	Length	Weight	Density	Trade Unit
P148-XXX-012	P10SR Crankbait	10 cm	15 g	Floating	4

- Material: ABS Plastic
- Lead free
- Ultra sharp and strong carbon steel hooks
- Ultra Sonic rattle balls
- Realistic eyes
- Integrated long cast system
- Hand painted detailed colors

Inspired by the famous Westin Platypus lure - loved (and hated) by big predators worldwide, this little beauty is so detailed that Mother Nature herself is taking notes! With an integrated long cast system - the two steel balls drops into the tail when casting to help you launch it to the horizon, and settles into the belly when swimming to draw those big,

confused predators in. With its erratic swimming action, it will get right up the nose of the biggest perch, zander, pike and bass - triggering an angry snap just because it's there - and whenever you stop the retrieve, it stays right there in the strike zone, driving them wild with anger!

After 32 different prototypes and countless hours of testing and adjusting lure designer Allan Christiansen created the first original Platypus lures in 160 and 190mm. These versions are the smaller lures in the Platypus family. As the larger family members this lure features one of the best

rolling and belly-flashing swimming actions ever seen on a lure. Another great feature is the Westin Optic Eyes made from colored optical fiber to create a unique – almost illuminating – light reflecting effect.

John Sjö

The Platypus lures designed by Scandinavian lure maker Allan Christiansen have become Scandinavia's leading big pike lures in no time. Numerous requests from pike specialists made us design slow rising, low floating models. When constructing these, a lot of attention was put into achieving the correct buoyancy. At a stop in the retrieve, these Platypus lures will hang and slowly rise in the water – an extremely persuasive trick when it comes to large, tricky predators.

"It took me 32 different proto-types and countless hours of testing and adjusting to achieve what I was looking for. The result is a unique lure with an incredible action and swimming pattern – even when fished at extreme slow speed for tricky pike during the coldest part of spring. When fished at high speed the action of the lure is just as incredible. Tight Lines".

Allan Christiansen

At Westin we love lures that are long casting and easy to fish. This hard nut casts a mile due to its compact shape and tungsten body. Let it sink to the desired depth and fish it on a steady retrieve. The Tungsten body is fixed directly into our custom-made Colorado spin tail, making this one hard diamond that will stand the test of time! Thanks to the direct connection the vibrations from the blade are amplified by the body, calling predators from far and wide. This extremely detailed lure can be fished in several ways and works great in all types of water, including

deeper lakes, on rivers, and from the shore or boat. Try jigging it along the bottom. The blade will spin and vibrate even when the lure drops, triggering predators to strike. DropBite Tungsten Spin Tail Jig can also be fished vertically, straight under the boat, simply fish it up and down in the water column. A versatile and long casting lure that covers a lot of water with the most insane tight and erratic swimming action, thanks to its fat and compact shape.

The key to the BladeBite is the vibration and action, with a very subtle clicking sound, that we have perfected down to the smallest detail. A bladed jig works equally well in clear or stained water and is normally fished high-up in the water column over grass, wood and rock structure, where the enticing action stimulates predators to strike. In pressured waters a bladed jig can be the difference between success and failure. Our Custom-designed 'stealth mode' Viking blades give the perfect mix

of erratic action and stealth presentation, making them hard for any predator to resist. Feel the blade start to kick out an insane amount of vibration as soon as it hits the water. The blade is strongly secured with a solid oval ring. We have also added a strong oval split ring out front to tie directly to your leader or for use with a wire trace. Feel free to experiment by adding any soft lures as a trailer, with curltails, paddletails, and creaturebaits working great and swimming beautifully.

MONSTERVIBE WILLOWBLADE

Code	Model	Weight	Trade Unit
P052-XXX-055	MonsterVibe (Willow)	23 g	4

- Ricky the Roach weedless weight design
- Hand painted detailed colors

Lively Roach
P058-136-025 36 g

Lively Rudd
P058-137-025 36 g

You can fish him as if he hasn't got a care in the world, or as if he's in a fearful flap. Either way, Ricky is the most-wanted roach in the water.

Predators are drawn to his positive swimming action, and driven wild by his trembling fins. Poor old Ricky triggers a bite wherever he goes.

- Lead-Free
- Ultra sharp and strong treble hooks
- Running Depth: 1-3 m
- Slide Lock Easy To Change Connection
- Life-Like Lure
- Full Eyelet-To-Hook Wire Connection
- Interior chamber for rattle sticks

P060-274-025 37 g
P060-274-047 160 g

There's nothing like a big, fat trout to fill up the stomach of a big predator. It's a known fact that predators grow real large when feeding on trout and several record monster pike and other predators are actually made in trout waters. In other words Tommy the Trout is the ultimate prey from the moment he leaves the tackle box and hits the water.

This Westin life-like lure is an amazing down-to-the-smallest-detail imitation of real prey. It comes with two optional eyelets. Use the front

eyelet to achieve a shallower running depth or the top eyelet for a deeper and more aggressive swimming action. The detailed pectoral and pelvic fins have a flapping action in the water and will trigger more bites. Finally the low floating buoyancy will make the lure rise slowly towards the surface during a pause in the retrieve. This natural looking, 'giving-up-all-hope' action will help you catch more fish.

MIKE THE PIKE HYBRID

Code	Model	Length	Weight	Density	Trade Unit
P061-XXX-031	Mike the Pike Hybrid	17 cm	42 g	Slow Sinking	4
P061-XXX-040	Mike the Pike Hybrid	20 cm	70 g	Slow Sinking	4

Pike are the ultimate cannibals – why compete with other natural-born killers when you can simply eat them? Mike the Pike is designed to be the ultimate prey for the meanest alpha predators out there. Amazingly life like down to the smallest detail. The detailed pectoral and pelvic fins

flutter in the water to trigger more bites. And with his low buoyancy, he rises slowly to the surface when you pause the retrieve. A natural-born killer.

Watch your speed with this incarnation of Ricky the Roach – The short tail allows a smooth and slow glide through the water and the big shad tail offers a fast and erratic action. Whatever speed you choose, this lure bursts into action as soon as it hits the water and has a tight rolling body

action.

It looks just like a real roach – in fact, some coarse fisherman would be happy to catch this little guy, so the predators will love to eat him. Perfected for jigging and casting for predators like bass, zander and pike.

HYPOTEEZ BUZZ 'N BLADE

When predators sink to the deep, change your armory and take them on with the new HypoTeez Buzz 'N Blade. This Rigged 'N Ready variation of the hugely successful HypoTeez is easy to cast and quickly sinks to the depths where it can work its magic. With a simple retrieve, the lure wiggles its body and buzzes its propeller and blade until... STRIKE! Thanks to the balanced weight in combination with the propeller and blade which

works as a break it's always sinking at a 45 degree angle. Meaning the propeller and blade have two purposes, creating vibrations in the water as well as keeping the HypoTeez in strike position!

This bigger version of the normal HypoTeez features the same ultra-realistic Smelt design and is perfect for a wide array of predators.

Add-It®

T37-618-169

The Add-It Spinnerbait Propeller has two custom made semi-soft propellers that create a totally new and different turbulence under the water, which no predator fish can resist - they can feel it a mile away! The unique design and mount of the propellers ensures that one revolves to clockwise and the other counter-clockwise (two directions). Not only does this create an insane amount of turbulence in the water, it also ensures the Spinnerbait rig always runs straight.

With a simple twist quickly Add-It to your favorite soft or hard lure and turn it into a spinnerbait!

Thanks to our corkscrew system quickly and securely attach any lure with ease.

Fish it slow in cold water, or fast over weed beds in the warmer months. The wide eyelet and precision-made construction ensure that your lure will swim freely at any speed.

T52-320-119	Add-It Jointed Stinger	32 kg	12 cm	#1/0	2 pcs	6

Add-It Jointed Stingers are made with two things in mind – versatility and extreme durability. The Add-It jointed stingers are extremely durable and long-lasting with multiple rigging and adjustment options. The Add-It Jointed Stingers can be mounted on a wide range of soft lures, with shallow-screws, screw-in heads and normal jigheads, and are

essential when targeting toothy predators like pike, muskie, and zander. After hook-ups, the joints enable a free 360°-degree rotation, which provides an improved landing rate. Using swivels instead of wire increases the weight in the rig, helping to stabilize your lures to give them a perfect swimming action.

- Extremely strong and durable concept
- 360° free rotation – Lose less fish
- Versatile rigging options
- Ultra-sharp and strong treble hooks
- Tournament grade stinger

Ghost Hunter
S155-594-012

This powerful top water bait takes the learning curve out of walking the dog, and it packs decades worth of fish catching experience into subtle features that increase your odds of landing the big one. A life-like fish patterned body pairs with oversized, realistic eyes for the right look to lure in bass, snook, perch, redfish and seabass. Elevated ribs create extra

surface turbulence. A unique nose scoop creates a finessed pop to tempt timid predators, much more subtle than the traditional popper. The Spot-On Top Walker's V-shaped body creates stability in the water paired with a low-sitting tail that increases hook-up ratio!

COCO THE CRAB HARDLURE

Code	Model	Length	Weight	Density	Trade Unit

Mud Crab
S070-279-081

Black Crab
S070-283-081

Disco Crab
S070-285-081

Be careful when tying this lure onto your line, he's such a life-like crab that he may give your fingers a little nip! Of course we're kidding, but Coco the Crab is a HUGELY realistic crab lure – made from a 3D scan of the real thing.

We spent a huge amount of time researching real crabs from around the world to create this lure and the wide range of amazing trigger colours and patterns it is available in.

When fished along the bottom, the defending foam claws rises above the crab's body and the semi-soft, realistic legs add balance and realism. It can also be fished easily in mid-water. It features a tungsten belly that means he always lands the right way up and makes Coco a lead-free warrior! Fish him slower with gentle twitches or jig him fast and work with short distinct movements and be ready... Coco is the perfect snack for a wide range of both salt and freshwater predators!

SWIM SW GLIDEBAIT

Code	Model	Length	Weight	Density	Trade Unit
S120-XXX-161	Swim SW Glidebait	10 cm	35 g	Sinking	6
S120-XXX-162	Swim SW Glidebait	12 cm	60 g	Sinking	6
S120-XXX-156	Swim SW Glidebait	15 cm	125 g	Sinking	6

- Material: ABS plastic
- Lead free
- Ultra-sharp saltwater hooks
- Full wire-through-body construction
- Long casting design
- Hand painted detailed colors
- Perfect for Snook, Redfish, Tarpon, GT, and Striped Bass

The original Westin Swim Glidebait has many benefits – a compact shape, a realistic baitfish imitation design and the ability to cast like a bullet through the harshest wind. These benefits, while awesome for freshwater fishing, make the lure a perfect candidate to be a saltwater champion – so that's exactly what we did. This saltwater edition of the Swim is designed to target saltwater trophies like Redfish, Snook, Striped Bass, GT's and many more, thanks to some new saltwater-specific paint

jobs and new extra strong hooks and split rings. The Swim is so easy to use, anyone could catch monsters on it. You can fish the Swim with "pull and wind" or on a steady retrieve, slow or fast, to create the action of a wounded, panicking baitfish and the panic can be increased with faster retrieves and regular pauses. This salty cousin of one of our most successful lures just opened up a whole new world to saltwater anglers.

SALTY JIG

Code	Model	Length	Weight	Density	Trade Unit
S135-XXX-082	Salty Jig	4.5 cm	8 g	Sinking	6
S135-XXX-061	Salty Jig	5.5 cm	12 g	Sinking	6
S135-XXX-065	Salty Jig	6 cm	16 g	Sinking	6
S135-XXX-069	Salty Jig	7 cm	22 g	Sinking	6
S135-XXX-076	Salty Jig	9 cm	42 g	Sinking	6

- Material: Lead
- Hook: Ultra sharp saltwater single hook
- Treble hook included with 16, 22 & 42g
- Double split rings for improved hook up
- Curved profile for perfect lively action
- For jigging and cast and retrieve
- Hand painted detailed colors

We have created a jig lure for saltwater species that is simple, beautiful and gets the job done. Whether you're targeting seabass, mackerel, barracuda or amberjack, this baby can be used to catch them in a variety of ways. Spinning, vertical jigging, jigging and slow jigging all produce results with Salty thanks to its flattened and curved body profile. It is

equally at home splashing in the shallows or diving into the depths and promises to reduce lost fish thanks to a reinforced single hook and double split rings that allow it some movement when a big one strikes. Salty is a no-frills, fish-catching favourite that you need in your tackle box.

- Soft body with internal weight – Rigged 'N Ready to fish!
- Life-Like Lure
- Ultra sharp and strong sea fishing hook
- Hook size: Single #1 / #1/0
- Glass/steel rattle stick inside for best acoustics
- Natural whiskers
- Optimized flexibility
- Multi-jointed for perfect lively action
- Inside mesh for maximum durability
- Hand painted detail colors

Before you get carried away, no – we are not now selling live baits. This is a lure – Salty the Shrimp R 'N R, to be exact, and the reason he looks so much like the real thing is because he is made from a 3D scan of a live shrimp. His fluttering legs, natural whiskers and multi-jointed tail section all seem to move independently as this slow-sinking lure makes it way down in the water.

He's not a fussy kind of guy, he works just as well with saltwater species like redfish, cod, flounder and seabass as he does with freshwater predators like bass and perch. Cast and retrieve him close to the bottom in either of these situations with the occasional rod twitch to get him dancing and pretty soon some big, hungry predators will join him on the dance floor – his days are numbered!

Fast Attach System

Fish the Magic Minnow from the shore or boat, fish it fast, slow, on a steady retrieve or jigging – with a weedless design and great action at all speeds. The super soft body of the Magic Minnow gives the lure a life like and natural swimming action with lots of vibration. The unique rigging system is fast and easy – you change the body in seconds. The Magic Minnow is

the perfect lure for sea bass and other saltwater species. Rigging: Press the soft body onto the jig head, mount the hook on the head with a firm grip so it "clicks", insert the hook through the vertical hole and let it rest in the hook slot of the back, apply one drop of super glue and press together. Ready to go!

When the big halibut and huge cod are proving tricky and hard to tempt give daisy a little jig and your chances will seriously pick up. She has an insanely sexy movement and swimming pattern - even fished slowly. Based on juvenile saithe - the favourite fish supper for the big trophy specimens hunting the seas and shores around Norway. We've included two different bodies - the curtail for a smooth, wormlike swimming

action (even at the slowest speed) - and the paddletail for that "take-me-now" wounded-panicky-fish action. We've spent years testing and perfecting the movement, trying out every possible change in shape, size and weight distribution. The experienced guides from Nordic Sea Angling who tested it now think we've succeeded - and some scarily big fish agree!

- Great swimming-action
- 100+ Lbs PE braid assist hook rig included
- Heavy wire Japanese style saltwater treble
- Package contains 1 complete lure

A wicked bad-boy is ready to hit the sea fishing camps, the charter boats, and all the fast boats out to catch the big one. Big Bob is the nastiest sea fishing jig to ever swim in the North Sea.

Every year during late winter and early spring the so called "Skrei" - the big pelagic cods from the Barents Sea - gather close to the coastline of northern Norway to eat and spawn. The amount of fish is unbelievable

and the biggest cod found here are the biggest cod found anywhere in the World. Big Bob is designed to play with these big boys as well as the biggest halibut. No matter if you are out to set a new European cod record or out to catch a big 'barndoor', you now have the choice of trying Big Bob in two sizes: Big Bob at 480g and 30cm or the really Big Bob at 730g and 40cm.

When you stare at him in your tackle box, Flat Matt may look just that: flat! But the second this guy hits the water he bursts into life with an incredibly realistic swimming action on the drop aided by the curly tail and side skirts around his wide-profile body that look amazingly appetizing to any hungry predator.

As with most of our lures, Matt is versatile. You can twitch and shimmy

him along the bottom with subtle rod bumps, or retrieve him slowly to see him creep along. Alternatively, you can jig him faster and get him up into the pelagic zone – just make sure you're ready for action because this sight might be too much for some predators to resist.

Flat Matt may not realize it, but his kind are a hugely important food source in the watery food chain, making this lure a certain day saver!

Rose fish

RED ED JIG

Code	Model	Length	Weight	Trade Unit
S081-190-086	Red Ed Jig	16.5 cm	360 g	2
S081-190-089	Red Ed Jig	19 cm	460 g	2

- Authentic fish look and swimming action – as close as it gets
- Active eyes
- Durable painting
- Ultra sharp and strong sea fishing hook
- Hook: Single #9/0 (360 g)
- Hook: Single #10/0 (460 g)
- Interchangeable hook system to slide inside body
- Contains 1 interior weight/hook system and 2 bodies

Lures don't come more realistic and life-like than this – it's not just a lure; it's part of the food chain! Scientists tell us that redfish can make up 75% of the halibut's food source in the North Atlantic*. The adult redfish is abundant in deep water while tasty baby ones are found in Fjords, bays and inshore waters. Choose between two updated weights/sizes – 360 g

or 460 g including a spare body. See all the colours and the underwater action of Red Ed and other Westin lure sea fishing jigs on Westin-fishing.com or on YouTube. *McIntyre, A. D. (1953). The food of halibut from North Atlantic fishing grounds. Marine research, Scotland 1952(3), 1-20.

Translated into English Sølvpilen means Silver Arrow. This Lead free lure will cast like an arrow flies, and it has proved to be a great lure to imitate prey like sand eels. Several sea trout exceeding five kilos has been

caught on this lure and even Atlantic salmon has been caught when using Sølvpilen from the shore. So far the biggest we have heard of was a 10.7 kg salmon caught in Lillebaelt in Denmark...

Making great lures even better is something we specialize in here at Westin, so when creating the F360°, we combined the best traits and key features from both the D360° and D360°D lures to create a long-casting seatrout lure with a stunning life like swimming action. It's good looks are

paired with great strength thanks to a full wire through body, mounted double split rings and strong treble hooks. A medium/fast retrieve will catch the hungry seatrout's eye and with a spin/stop to create irregular rotation, you can be guaranteed that a bar of silver is coming your way.

This inline lure is designed to catch more fish and lose less! It will cast far and has a great irregular action that will attract fish from far away. Occasional spin stops will make it spin and rotate to attract even more trout.

The D360° trout version is designed for put & take fishing as well as other types of trout lakes where the fish sometimes tend to be very shy. If necessary, D360° can be fished at an extremely slow pace and still keep its vivid action. This will make a huge difference in catch rate on high pressure waters. The several front/back contrast colors are another

feature that will make a great difference. When fishing for wild trout in alpine lakes this small D360° is worth a try. It will catch both numerous and huge trout's.

Rigging tip: Run your line through the lure and use a small round or oval bead to protect the knot before tying the line to a single or treble hook of your choice. If you prefer a free swinging hook we recommend mounting the hook on an oval split ring and tying the knot to the double-stranded part of the ring.

The D360 V2 is an updated version of the famous and fish-catching D360. The new version features a slimmer profile and a smoother surface compared to the original D360. These changes, together with moving the balance point further back, has increased casting distance and improved the action. During a steady retrieve the D360 v2 swims

in an erratic side-to-side action. During spin stops the lure continues to rotate – these are features that even the trickiest sea trout cannot resist. Even in strong winds the D360 v2 can be cast long distances, but will still fish shallow.

Designed to catch more fish and lose less, this in-line lure is based on a classic that just keeps catching the big ones! Narrower than the original D360° and with more weight in the tail, it allows you to cast to the horizon, even in a stiff wind, in search of the best fish. It rotates on the

retrieve making the big seatrout go wild, and comes in a wide range of irresistible handpainted colours. Just cast it out and watch it go like a fish-seeking rocket!

Translated to English the name Sømmet means "the Nail" – and it will nail those big trout. This in-line lure is a perfect long casting lure and one of the all-time favorites among hardcore sea trout anglers in parts of Scandinavia. It might look like a nail, but in the water it's a great imitation of sand eel – perhaps the most important prey for big sea trout hunting

in shallow water. Rigging tip: Run your line through the lure and use a small round or oval bead to protect the knot before tying the line to a single- or treble hook of your choice. If you prefer a free swinging hook we recommend mounting the hook on an oval split ring and tying the knot to the double-stranded part of the ring.

Sandy Inline is designed for coastal saltwater fishing when sea trout are patrolling the reefs, sea bass are feeding in the surf, and other saltwater species are searching for prey. Sandy Inline imitates a sand eel and features great movement at both high and slow speed. It mimics an escaping bait fish when retrieved fast with spin stops. At a slower retrieve Sandy Inline

swims in a tight S-curve, imitating a cruising sand eel. Sandy Inline casts to the horizon thanks to the streamlined body and intelligent placement of the weight system. This lure comes in several irresistible colors, from natural sand eel patterns, to brighter colors to cover all conditions. The inline concept improves hooking, and will put more fish in the net.

Based on the bestselling Westin lure Salty, this Inline lure has it all. It will cast far even against the hardest wind, it can be fished fast or slow, it can be used in shallow as well as deep water and it has a swimming

action that appeals to trout and seabass at all times of year. Salty Inline imitates numerous baitfish on the seatrout and seabass menu and the inline system ensures a significantly better hook-up ratio.

The Westin Goby V2 will be your new best friend when targeting sea trout, sea bass, trout, or stocked rainbows, as well as salmon and trout in rivers.

The Westin Goby V2 is a baitfish imitation featuring a compact body that enables it to cast far and cut through even the hardest winds.

The shape and perfectly balanced weight distribution give it a seductive

slow rolling side to side movement when retrieved, and during spin-stops it stays horizontal while it wiggles down through the water column flashing its belly enticingly from side to side.

The Westin Goby V2 is suitable for fishing in all conditions – fish it in heavy waves or calm water, fast or slow, add the occasional spin stop... and wait for the fish of your dreams to strike!

Great Heron is a lure designed according to Finnish lure traditions. It was created and tested in cooperation with experienced anglers from Finland and Sweden. Right from the very beginning it has proved to be a highly efficient lure – not only for trout and salmon, but also for species like asp,

perch and pike. Great Heron can be retrieved fast or slow. Regardless of the speed it has a very vivid action that will trigger the bite. No wonder this lure has become one of the most popular lures in Scandinavia!

This best selling Westin lure has it all. It will cast far even against the hardest wind, it can be fished fast or slow, it can be used in extremely shallow water and it has a swimming action that appeals to trout at all times of year. Try the largest version when night fishing for really big trout during the summer. Numerous fish in excess of five kilos have been

tricked by the action and the baitfish-like silhouette this lure creates. And if we're talking picky trout in wintertime nothing can compare to the medium or small versions fished at a slow pace with a few twitches of the rod tip and a couple of pauses during the retrieve.

The brass body construction of the Westin Optic 360° has an aerodynamic shape that will ensure great casting distance and accuracy. The beautifully designed brass blade will reflect light from different angles. It rotates at the slightest touch of the reel handle and initiates

those impulses of movement that no trout, salmon or other predator can resist. This is simply the best looking and most attractive spinner out there and the strong Japanese-style hooks will stand the test of even the hardest fighting fish.
