sea:guide®
PRECISION ROD COMPONENTS

- Blank: 24 / 30 tonne High Performance Carbon
- Handle: Premium EVA split handle
- Custom made rubber non-slip bottom cap
- Hook keeper: Seaguide® Dhook

Designed for softlure fishing when chasing trout, but ideal anytime you need an ultralight rod for softlures. Whether you target trout in pay lakes, or brown trout in your local river, the light Softlure range will be up for the task. These steely, slow action blanks are ideal for throwing light lures accurately, whilst the sensitive tip indicates even the shyest of bites. These rods will guarantee you maximum fun, even when targeting smaller fish.

TERMITE

AVAILABLE
01.01.2024

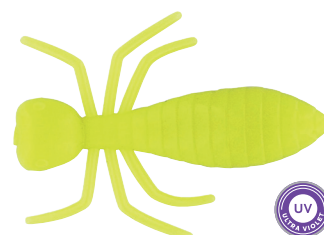

- Strong UV colours
- Ideal for Put & take trout pools
- Super-soft material
- Infused with Garlic / Cheese or Banana scented oil
- Choose from multiple rigging options, such as tungstens hook, hook with Cheburashka, trout blades or with a bombarda float.
- Floating material
- No toxic phthalates
- Available in six highly effective colours

The Westin Termite is a game-changer in the world of finesse fishing. This innovative soft lure takes its inspiration from Nature's tiniest critters that are the prey of hungry trout and other predators. With its slim profile, subtle vibrations, and realistic leg action the Termite will entice even the most wary fish. The super-soft floating material enables this lure to be fished in a wide range of ways. Twitch it, fish it on a steady retrieve, or fish it passively on the bottom. This versatile lure can be used with tungsten hooks, with a Cheburashka, trout blade, or bombarda float. The rigging options are endless! Infused with either garlic / cheese oil or banana oil, the two best trout attractors of all time, and available in six highly effective colours.

- Strong UV colours
- Ideal for Put & Take trout pools
- Super-soft material
- Infused with Garlic / Cheese or Banana scented oil
- Choose from multiple rigging options, such as tungstens hook, hook with Cheburashka, trout blades or with a bombarda float.
- Floating material
- No toxic phthalates
- Available in six highly effective colours

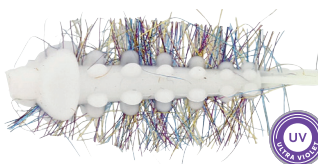

Introducing the game-changing Westin Riffle Larva. This innovative soft lure combines the lifelike appearance of a larva, with the added allure of fine, flowing hairs. Designed to mimic the natural prey of trout and other predatory fish, the fine hairs add an extra dimension of realistic movement that triggers aggressive strikes. The super-soft floating material enables this lure to be fished in a wide range of ways. Twitch it, fish it on a steady retrieve, or fish it passively on the bottom. This versatile lure can be used with tungsten hooks, with a Cheburashka, trout blade, or bombarda float. The rigging options are endless! Infused with either garlic / cheese oil or banana oil, the two best trout attractors of all time, and available in six highly effective colours.

- Free from toxic phthalates
- Garlic/cheese or Banana scented
- Double curltails with paddle tips, perfect action at all speeds
- Hook slot in the back

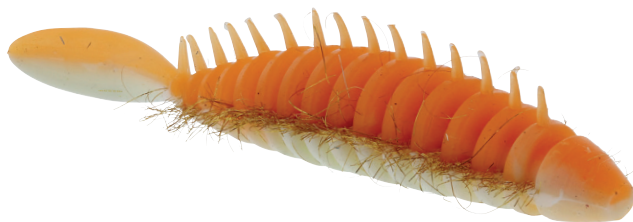

The original RingCraw has become a legendary perch fishing lure and this new version is set to follow these footsteps for the modern trout angler. The fantastic action of the Ringcraw creates huge amounts of water displacement, ringing the dinner bell to any lurking trout. Jig it, or rig it, and hold on tight! With a belly loaded with salt that, not only, encourages trout to hold on longer, but also acts as a keel weight balancing the swimming action of the lure, giving a stable swimming action, even at super-slow speeds. The double curl tails terminate in tiny paddle tails that keep the lure working perfectly as it sinks on every pause. Every detail of the RingCraw's design has been carefully considered to make this lure as versatile as possible. Check out recess in the ribs on the back that allow the hook to be fished weedless, making this lure perfect for searching through heavy cover. No trout is safe from the legendary RingCraw!

RIGGED TROUT SINGLE HOOKS

NEW!

AVAILABLE
01.01.2024

- Rigged for free movement
- Ultra sharp hooks

Rigged Trout Singlehooks with fixed spring rings are ultra-sharp single hooks designed to optimize your fishing. Use them on your spoons or behind an inline lure. The spring ring makes sure the hook and lure can move freely, which both gives your lure a better movement, but also ensures a better hookup when the fish strikes. Also suitable for fishing in saltwater

RIGGED TROUT TREBLE HOOKS

NEW!

AVAILABLE
01.01.2024

- Rigged for free movement
- Ultra sharp hooks

Rigged Trout Treblehooks are ultra-sharp quality hooks with a spring-ring already mounted, so it's "Ready to Fish". The size of the hooks is specially selected to fit the different lures in our collection. The hooks are packed in a quality box that can be opened and closes again and again.

M113-XXX-027	BULLDOG	4.4 CM	10 G	6

Bulldog is a completely unique trout lure that fishes exceptionally well in many different situations. Bulldog is designed, developed by Ole Gregersen, who has managed to design a small compact lure that throws like a missile, cuts well in the wind, and strikes aggressively in the water which is irresistible to the trout. Everyone who fishes P&T regularly knows that the trout love slow-spinning and with the Bulldog's unique keel it moves exactly how it should, despite its compact appearance. If the fish has gone deeper in the lakes, the Bulldog would also be a clear favorite and our absolute 1st choice for fishing deeper than 1 meter.

- Great lure for put & take fishing
- Small, enticing and effective!
- Ideal for deeper waters
- Handpainted detailed colors

Bulldog inline is specially designed for trout fishing in put and take. Bulldog inline's compact shape makes it cast fantastically far and accurately, and its aggressive movements in the water makes it irresistible to trout! The Bulldog inline fishes effectively with both single and treble hooks, and as a inline lure you will lose far fewer fish than with a traditional threaded lure.

CODE	MODEL	LENGTH	WEIGHT	CT
M115-XXX-032	FIDUSEN	3.2 CM	2.8 G	6

Fidusen is an extremely effective micro lure that the trouts can't resist! The small lure of only 2.8 g has to be fished ultra-slow either as a normal lure on a thin braided line or mounted behind a float to cast it further. The shape and movement of Fidusen make it a "sure thing" when fishing for trout. Fidusen can be used all year round and is by far the most preferred micro lure by Danish top anglers.

- The perfect micro-lure for all conditions
- Can be fished behind a bombarda float
- Handpainted detailed colors

The Fidusen Slim is a slimmer and abit heavier version of the original Fidusen, the little extra weight allows you to throw longer and more accurately! The Fidusen Slim has a great luring action in the water. It can be fished high and deep in the water column, and is perfect for spot fishing as it quickly gets down in front of the fish. At the same time, it is smaller in size and therefore also good for the more selective trout that are otherwise difficult to lure into a sting.

Præsten is a legendary inline lure for trout fishing. This all time classic has proven to be the most effective lure for big trout's the last 25 years.

It offers great casting abilities, and it's possible to spin it so slow that it is almost impossible for the fish to ignore it.

We offer a wide range of weights which makes this lure so versatile that you can find one that suits all your needs within the range.

Twister is the perfect combination of broad surface, rotation and weight. Added ultra sharp UV contrast colors so you have a super lure that really catches fish / Together it gives a superb flash that all kinds of trout like! Twister is a great inline lure for ALL kinds of trout! Twister is added sharp UV contrast colors that flash violently underwater when it makes its ultra fast rotations, something that really attracts all predatory fish! Twister has an almost mesmerizing and enticing movement in the water even with slow spinning! Twister's ultra fast rotations move a lot of water, and these vibrations attract all predatory fish! Twister 2g is an interesting lille lure that can be fished both as a regular inline lure on a spinning rod or behind a bombarda / glass float. OGP Twister 2g must be fished ultra slowly. Here it will still make rapid rotations about its own axis. Something that really entices the trout to bite! A superb and versatile inline lure that fishes well all year round.

The Gotlandspilen has a unique design that ensures extra-long throws and at the same time, it can be spun in slowly to fish shallow areas. Gotlandspilen moves with large enticing rashes in the water which imitates an injured prey, and thus an easy and tempting meal for the sea's predatory fish. Gotlandspilen is rigged with Rigged Trout treblehook (#6-#8) or Rigged Seatrout singlehook (#2-1/0) on a fluorocarbon line (ø0.4mm)

H-Sømmet is a true Danish classic when talking sea trout fishing lures on the Danish coasts. The design of H-Sømmet make the movement mimics one of the sea trout's most important food sources, the sandeel. The elongated shape of the H-Sømmet allows good long throws, which ensures that the angler uncovers as much water as possible and increases his fishing chances. The H-Sømmet is rigged with a Rigged Trout treblehook (#8) or Rigged Seatrout singlehook (#2) on a fluorocarbon line (ø0.4mm).

The original H-Skrue has for many years been one of the most catchy fishing lures, for sea trout and other fish on the Danish coasts and marinas. The H-Skrue has an enticing movement in the water and the rotation about its own axis at spin stop often triggers a strike from a fish that could not resist the temptation.

The H-Skrue fishes super well with even spinning, and with a lot of spin stops, it is important that you keep in touch with the lure at the spin stop, as this is often where the sea trout strikes.

H-Skrue is rigged with a Rigged Trout treblehook (#8) or Rigged Sea-trout singlehook (#2) and a fluorocarbon line (ø0.4mm) is recommended
